

BOWLING LANE WIDTHS

The following dimensions are net measurements of uninterrupted lane widths only. Additions should be made for columns, walls, and passages between or beside lanes.

NUMBER OF UNINTERRUPTED LANES	MINIMUM WIDTH 10 1/2" RETURNS	
2	11' 6"	(3.51 m)
4	22' 7 1/4"	(6.89 m)
6	33' 8 1/2"	(10.27 m)
8	44' 9 3/4"	(13.66 m)
10	55' 11"	(17.04 m)
12	67' 1/4"	(20.43 m)
14	78' 1 1/2"	(23.81 m)
16	89' 2 3/4"	(27.20 m)
18	100' 4"	(30.58 m)
20	111' 5 1/4"	(33.97 m)
22	122' 6 1/2"	(37.35 m)
24	133' 7 3/4"	(40.74 m)
26	144' 9"	(44.12 m)
28	155' 10 1/4"	(47.50 m)
30	166' 11 1/2"	(50.89 m)
32	178' 3/4"	(54.27 m)
34	189' 2"	(57.66 m)
36	200' 3 1/4"	(61.04 m)
38	211' 4 1/2"	(64.43 m)
40	222' 5 3/4"	(67.81 m)
42	233' 7"	(71.20 m)
44	244' 8 1/4"	(74.58 m)
46	255' 9 1/2"	(77.96 m)
48	266' 10 3/4"	(81.35 m)

For each additional pair of lanes add 11' 1 1/4" (3.38 m).

👑 Brunswick New Center Development

CONSIDERATIONS

Looking beyond the here and now is crucial for the longevity of your business—and the return on your investment. Brunswick’s team is ready and able to steer your project towards success. Before your project kicks off, it’s important to study the strengths, weaknesses, and opportunities of your desired locale.

- Locations containing restaurants, theaters, taverns, and other entertainment venues near residential areas are a good choice. Good visibility, easy access, and high traffic count all lend themselves to effective locations.
- Zoning of land restricting commercial business or parking. Zoning can be a deciding factor in your bowling center location. Consider building expansion and additional services as well. Be aware of any ordinances that could affect your future plans.
- Nearby churches or school buildings restricting traffic or sale of alcoholic beverages
- Your desired center size (lane quantity) and supporting services will dictate the size of your property. Keep in mind future expansion.
- Maximum visibility of building from street, i.e., obstructing location of buildings, railroad overpasses, trees, signs, etc., in line of sight
- Local sound ordinances
- Availability of parking requirements for maximum number of lanes.
- Traffic flow restrictions to entrances and exits from property.
- Certified test borings to determine if ground can support the weight of a suitable building for bowling.
