# ***NOT ALL PINSETTERS ARE CREATED EQUAL***

Boost ST isn't equal to other string pinsetters—it's far better. Boost stands alone with future-proof technology that delivers the flexibility and agility to adapt to whatever tomorrow brings, combined with durability for the long haul. Different by design, Boost incorporates advanced sport technologies to improve performance, safety, efficiency, and the bowler experience.

## ***FUTURE-PROOF, UNSTOPPABLE PERFORMANCE***

Boost ST has been engineered to deliver the professional-grade construction of the iconic GS NXT platform and the future-proof technology of the 360 Controller, ready to evolve and adapt with the industry well into the future.

Boost is the world's only cloud-enabled, future-proof, USBC-certified string pinsetter, with the pedigree and performance you'd expect from the newest member of Brunswick's fabled pinsetter line-up. Our family of future-forward pinsetters specifically addresses proprietors' operational challenges while meeting bowler expectations. Keep your lanes running nonstop with the legendary reliability and cloud-enabled performance of Brunswick pinsetters.

## THE 360 CONTROLLER MAKES BOOST ONE-OF-A-KIND

Brunswick's exclusive 360 Controller is the most innovative pinsetter software platform in the bowling industry. Leveraging the Brunswick Cloud, the 360 Controller's powerful yet flexible software allows proprietors to enjoy endless updates in functionality and features without the need to replace hardware. The Controller seamlessly updates performance features (such as detangling), user interface improvements, and other functionality.

The 360 Controller features an intuitive, easy-to-learn touchscreen user interface. Its clear, simple design and quick access to menus and modes makes troubleshooting, operation and maintenance easy. Since the software-driven 7" touchscreen display isn't limited by physical buttons, functionality and features can keep up as business needs and technologies evolve.

## PLUG AND PLAY WITH ANY SYSTEM

Boost is fully compatible with any major scoring system, delivering all the quality, durability, and performance you'd expect of a Brunswick product. Even better, Boost integrates seamlessly with the Brunswick Cloud, Sync scoring and management system, and all of Brunswick's plug-and-play solutions. Special features reserved for Sync users include error reports, the Pronto center operations app, and games featuring on-demand pinsetting.

Boost ST was designed by the same expert engineers who developed Brunswick's iconic GS freefall pinsetter line. Modeled after the GS NXT, Boost ST is designed with rock-solid reliability you won't find in any other string pinsetter.

360 CONTROLLER

#### **360 CONTROLLER**

- Capacitive 7" LCD touch screen with easy-to-use instructions
- Fully customize machine preferences

#### **PIN SELECTION GAMES**

- Integrate with Sync for league training features and games using unique pin arrangements

#### **MORE ENERGY EFFICIENT THAN FREEFALL**

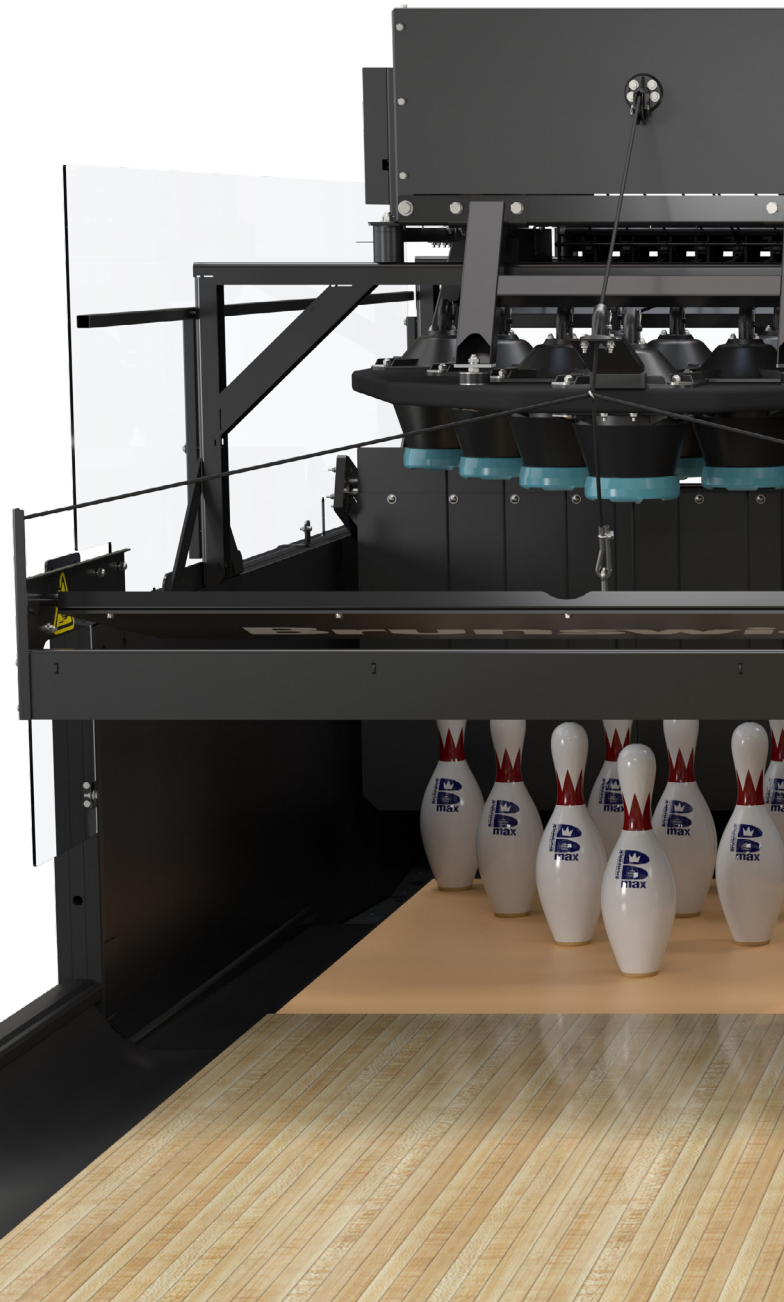

- Motor runs only when needed
- Reduces energy consumption by more than 70%, lowering costs

#### **LOCKING FEATURE PREVENTS PINS IN BALL DOOR**

- Increased uptime
- Improved machine performance

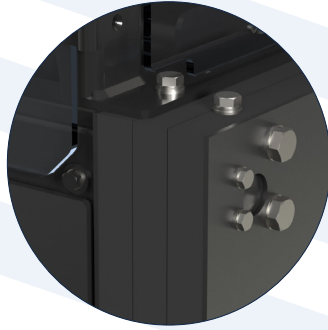

- / Durable 100% phenolic-covered kickbacks [same as GS-NXT]
- / Steel frames for long-term durability
- / Longer string length for better bowler experience
- / Movable curtain provides easier access and sits higher, preventing pins from getting stuck
- / Adaptive self-detangling feature resolves 99.99% of frames bowled, reducing downtime
- / Modular design for quick component replacement by staff
- / Rear access for safety

DETANGLER

LOCKING BALL DOOR

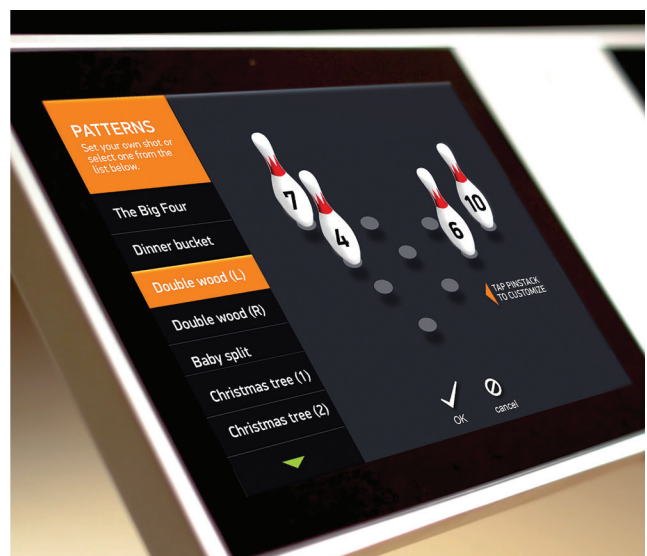

## BUILT AROUND THE BOWLER EXPERIENCE

Realistic pin action and consistent scoring enhance guest satisfaction. Boost's USBC-certified, commercial-grade design and construction include longer string length and denser kickbacks that lead to a more authentic bowling experience. The 360 Controller's adaptive detangling feature automatically resolves 99.99% of frames bowled without staff intervention, resulting in a better guest experience and happier staff members.

Boost's on-demand pinsetting feature and integration of Sync scoring system lets bowlers enjoy games and league training features that require unique pin arrangements. The myShot spare trainer lets bowlers pick and repeat attempts at a favorite spare pattern, making it perfect for expert and league bowlers who want to refine their techniques, as well as competitive friends looking to challenge each other.

## ***ENSURE OPTIMAL PERFORMANCE WITH THE PRONTO OPERATIONS APP***

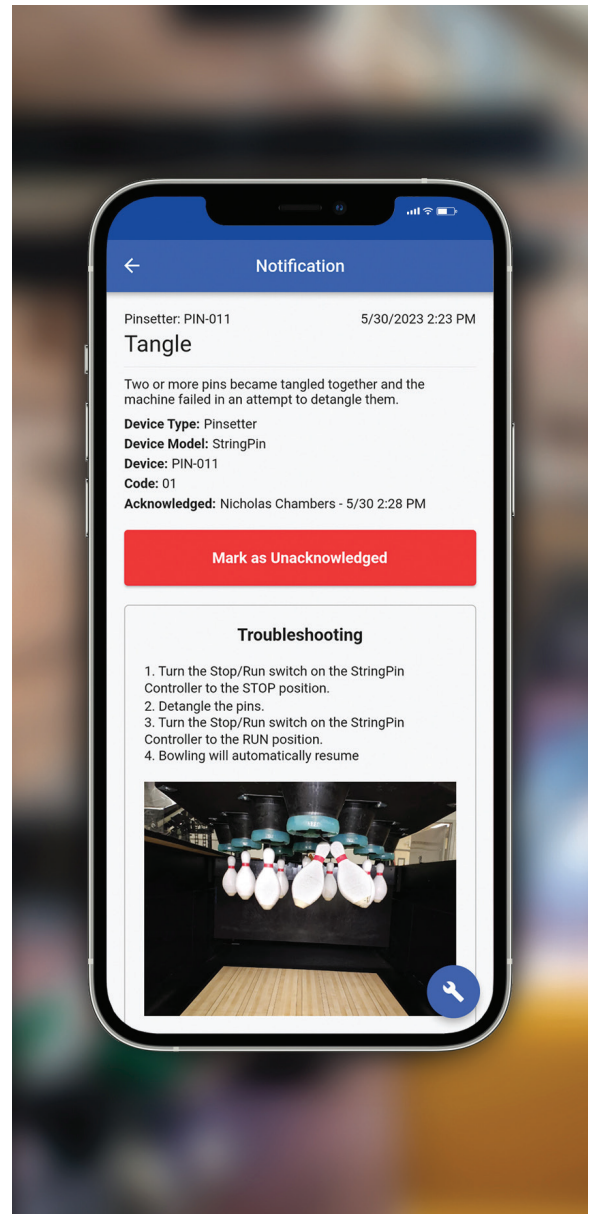

The Pronto operations app provides your staff with real-time pinsetter operational alerts and troubleshooting, saving time and ensuring optimal performance from your pinsetter. Pronto simplifies and streamlines maintenance by staff members of all skill levels, with easy-to-understand error codes and troubleshooting guides for all Brunswick pinsetters. Cloud-based data tracking allows access to critical performance reporting from anywhere.

## ***REDUCE LABOR AND OPERATING COSTS***

Boost ST doesn't require mechanical expertise—in fact, Boost's intuitive touchscreen makes it simple enough for any staff member anywhere, from the front desk to the kitchen, to operate. Boost ST uses smart, energy-efficient technology that only runs motors when needed, reducing energy consumption by more than 70% compared to traditional freetail pinsetters—thereby costing less to run. And Boost features 80% fewer components than traditional pinsetters, with no components that require regular maintenance [other than strings and pins].

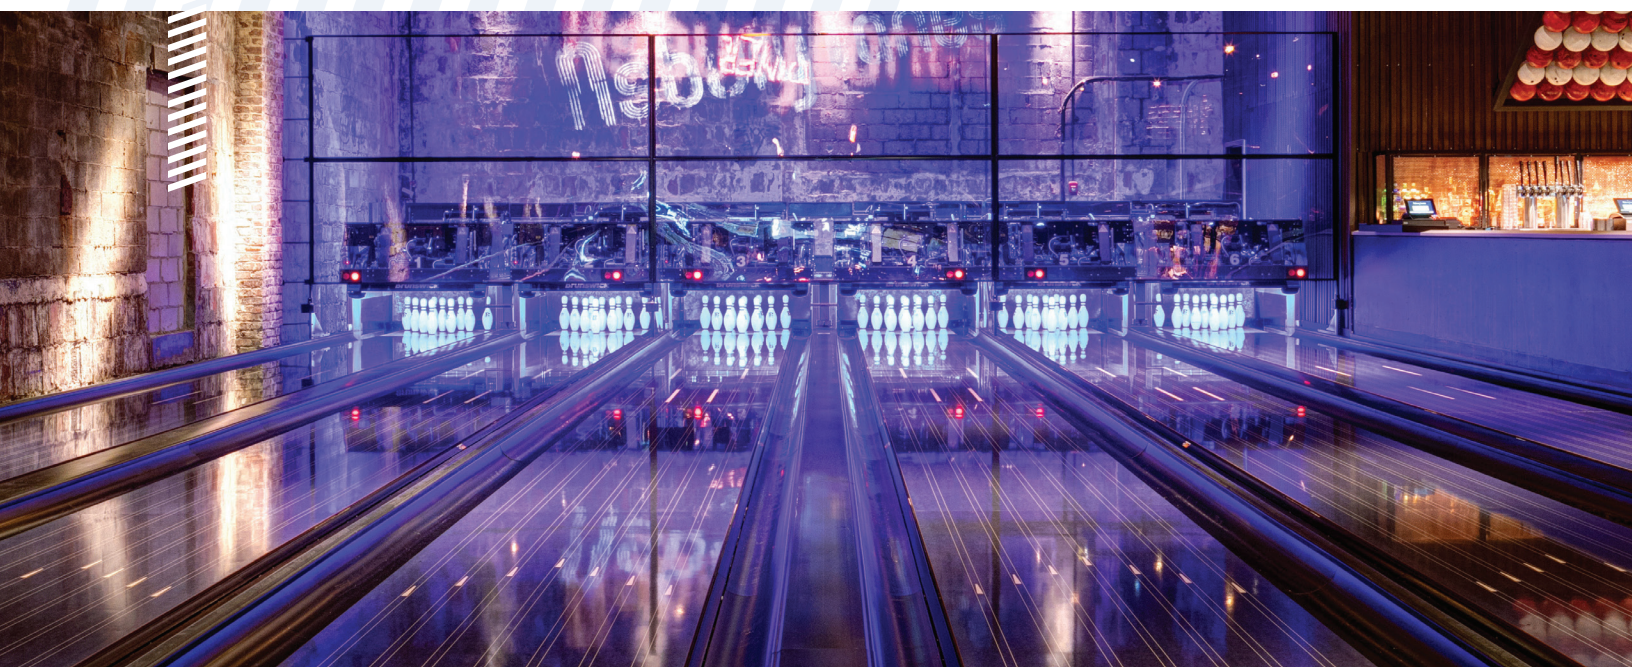

## ***DESIGNED WITH SAFETY IN MIND***

Boost ST is the only pinsetter on the market with a fully guarded machine, with all adjustments made from the rear of the machine. When detangling or replacing pins, the movable curtain provides improved access for optimal safety. Boost is UL- and CE-certified.

Boost ST is USBC-Certified  
for competitive play.

## ***BRUNSWICK: THE INDUSTRY CHOICE***

With more than 125 years of experience and products installed in more than 70% of the world's bowling centers, Brunswick is the industry's only provider of both capital equipment and consumer products. As the industry leader in competitive and open play bowling, Brunswick is proud to be the official capital equipment supplier of the USBC Open and Women's Championships and the PBA.

Boost ST is backed by Brunswick's exceptional ongoing support and commitment to software-driven upgradability and innovation. Like all Brunswick products, Boost comes with the unmatched installation, training, 24/7 tech support, service and warranty from the biggest name in bowling. You can be assured that Boost will perform the moment it's installed and for many, many years to come.
