THE BENEFITS OF BRUNSWICK

EVERYTHING YOU NEED

As the only manufacturer actively engaged in every segment (consumer, aftermarket, and capital equipment) of the bowling industry, we bring a unique perspective and holistic approach to design and innovation. Our complete line of top performing products ranges from the Sync® center operating system to longer lasting synthetic lanes, from StringPin pinsetters to stylish, functional furnishings. And while each one of our products works great on its own, the results they produce when implemented together are even better.

INNOVATION AS A WAY OF BUSINESS

From standardizing the rules of the game to introducing Spark® immersive bowling, the evolution of bowling is led by Brunswick. The Brunswick tradition of game-changing innovation is fueled by a passion that lives within each member of the Brunswick team. No matter how consumer demands evolve and grow, Brunswick remains committed to developing leading-edge technology that keeps centers around the world relevant and profitable.

BETTER TOGETHER

Brunswick's unique approach to innovation is rooted in our passion for working with proprietors to develop powerful business tools that address the greatest operational challenges facing the industry. Brunswick understands that the most effective product solutions are those that meet the needs and expectations of proprietors, bowlers, and center staff. Every product, software feature, and service we offer is designed to enhance the bowler experience, optimize staff efficiency and increase profitability for proprietors. From Sync center operating system to Center Stage furniture, many of our most successful products have been developed in collaboration with proprietors.

AT YOUR SERVICE

In addition to making the world's best bowling center equipment, we offer a full range of support services that maximize effectiveness and profitability. Only Brunswick offers dedicated teams to support every phase of your project, from concept to completion. We are here to help analyze which investments are best suited for you, expertly install your new equipment, professionally train you on its use and maintenance, offer 24/7 product support, and even help with marketing. The bottom line: no matter what assistance you need to get the most out of Brunswick products, you can count on us to deliver it.

PEACE OF MIND

Successful bowling centers develop an environment that draws customers in and keeps them coming back. Creating that environment requires a strategic partner that's here to stay, with a proven track record of supporting and reimagining the bowling industry. With more than 125 years of experience and products installed in more than 70% of the world's bowling centers, Brunswick is the best known and most trusted name in bowling.

SYNC

IT'S HOW THE GAME IS ONE!

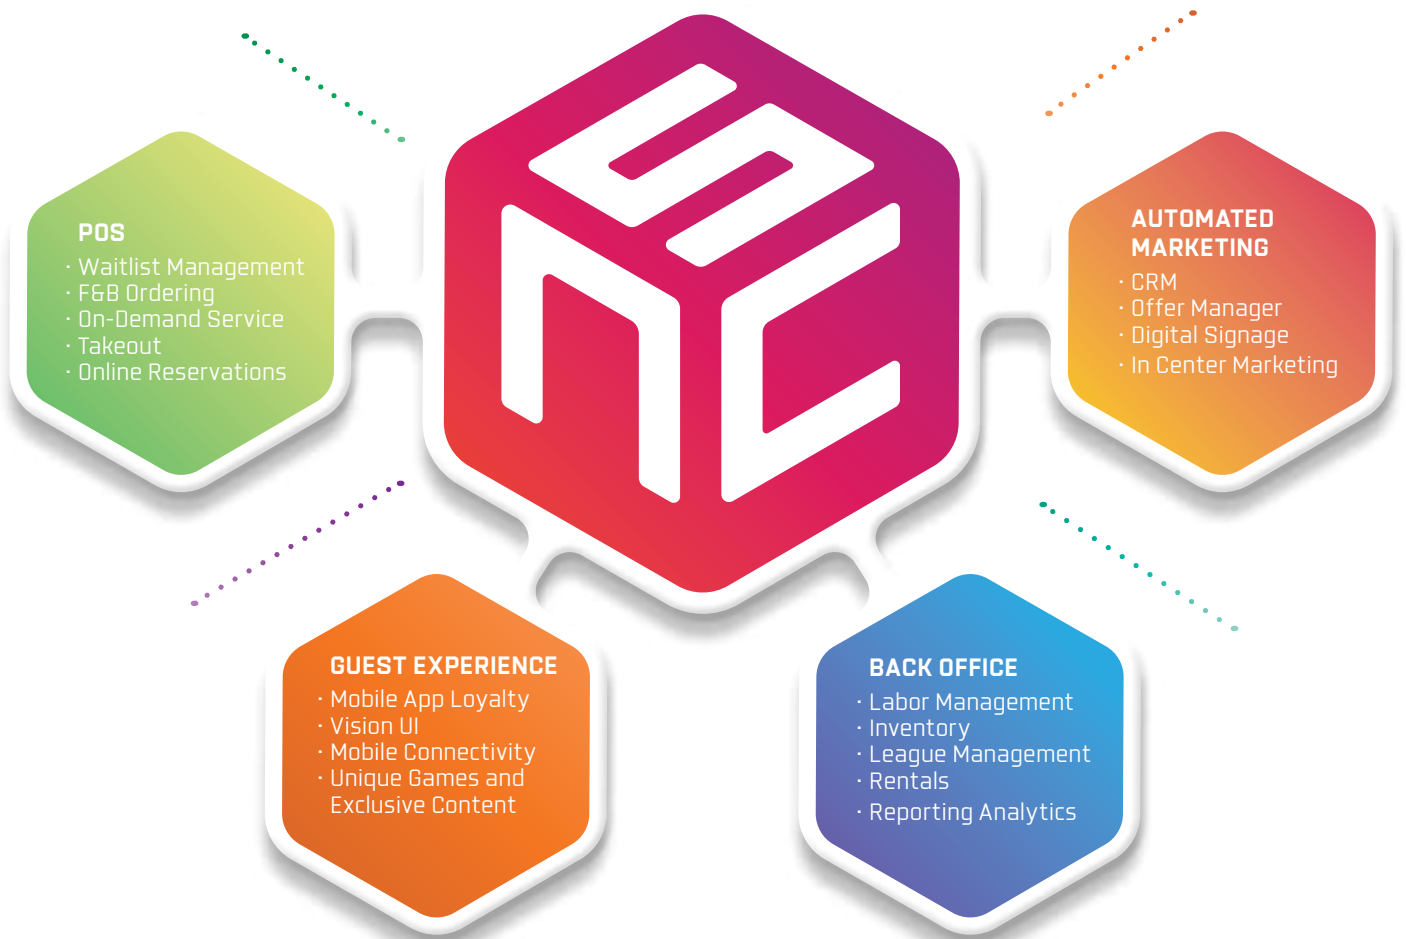

SYNC

Brunswick has created the most innovative, robust, entertaining, and comprehensive bowling system capable of running every aspect of your center. Sync is the fastest-selling scoring and management system in the bowling business, and for good reason. Sync helps you automate key marketing functions, provides a powerful platform of management tools, and is the only bowling system built on leading-edge, cloud-based technology.

Since Sync's original release in 2015, Brunswick has remained steadfast in its commitment to lead the industry with powerful business tools that streamline operations and improve profitability while elevating the guest experience. Brunswick continues to partner with proprietors on Sync upgrades and new features, with the mission of addressing your biggest challenges while providing a superior experience for everyone in your center.

IT'S ALL IN SYNC!

INTRODUCING SYNC MAGNUS, OUR LATEST UPGRADE FEATURING 500 NEW ENHANCEMENTS AND POWERFUL STRATEGIC AUTOMATION TOOLS.

Sync Magnus introduces new solutions to proprietor requests and industry trends, providing more strategic automation than ever. Sync Magnus drives additional revenue, prioritizes people, and streamlines operations that protect, preserve, and improve the customer experience. It's all about making the lives of proprietors, staff, and customers easier. This latest update to Sync introduces 500 enhancements, including new automation features in office functions, analytics, POS, Kiosk, mobile tablets, and Spark.

In fact, Sync Magnus automates the entire bowling purchase process, from taking an online or in-center Kiosk reservation through sending waitlist updates to issuing the lane when it's ready—all without staff intervention. Sync walks the customer through every step of the process, driving revenue and cross-selling while staff are freed up to solve problems and focus on ensuring an exceptional guest experience.

BRUNSWICK CLOUD

Count Sync among the leading-edge applications that run in the cloud. Sync stores its marketing tools and your customer databases in the Brunswick Cloud, feeding you data at lightning speed. Benefits include more seamless integration between system functions/modes, the added security of protecting vital customer data from loss due to catastrophic events at your center (e.g., fire/flooding), and accessing data and marketing tools from anywhere at any time. Brunswick Cloud technology brings simplicity and security to your fingertips 24/7/365.

FUTURE-PROOF TECHNOLOGY

Brunswick designed Sync from the ground up, incorporating hardware and software technologies that weren't even imaginable just a few years ago. Cloud-native architecture and Brunswick's fast-paced feature development ensure you will have the tools you need to address whatever operational challenges and consumer expectations tomorrow may bring. Updates and new features are regularly available with just one click, as Sync's future-proof architecture allows Brunswick engineers to work with proprietors to develop new features and updates in real time.

CUSTOMER-CENTRIC DEVELOPMENT

Strategic insights from proprietors continue to play a crucial role in the product roadmap for Sync, as does our agile development and adaptive testing process. With Sync, we set out to create a center operating system that would address bowling centers' most critical business priorities: driving revenue, controlling costs and improving operations. Over time, the bowling business continues to evolve, and the factors influencing profitability change. We are constantly monitoring industry, technology and consumer trends to ensure Sync provides the most robust business solutions, with software updates deployed frequently via the Brunswick Cloud.

MULTI-LOCATION FUNCTIONALITY

Sync rivals the leading enterprise POS systems with robust tools and flexibility while delivering the advantage of being designed specifically for FECs. By leveraging the enterprise-level services and functionality available in Sync, centers of all different types can use powerful tools to manage marketing and product offerings from their center, their home, or wherever they have access to the cloud. Run all your FEC attractions using Sync POS.

SYNC

WE'VE MADE IT EASIER TO PUT THE MOST POWERFUL SCORING AND MANAGEMENT SOFTWARE TO WORK FOR YOUR CENTER WITH OUR ALTERNATIVE BUYING PLANS AND SUBSCRIPTIONS.

CROWN ADVANTAGE

Crown Advantage is the industry's first center operations subscription that conveniently bundles software updates, support, marketing, and mobile applications. This comprehensive subscription plan simplifies operations with easy software updates and frequent enhancements, ensures access to our proven revenue-driving business solutions, and lets centers avoid unexpected expenses for software and support.

Crown Advantage delivers cutting-edge Sync software updates, a robust cloud-based automated marketing platform, OpenLane mobile app, and Brunswick technical support—all in a single, easy-to-manage subscription.

Crown Advantage improves profits, lowers risk, and offers peace of mind to proprietors with easy access to the latest business-building software and 24/7 technical support all in a convenient bundle. Crown Advantage is available in multiple subscription tiers, so centers can select the package that's best for their business's needs.

ONE. FOR ALL.

Sync[®] One™ is a revolutionary buying option that allows centers to purchase Sync, the industry's most comprehensive and only cloud-based scoring, management, point-of-sale, and automated marketing system, with up to 75% lower initial investment. Now, every center in America can leverage the power of Sync to transform their business overnight. It's never been easier to get ahead and stay ahead.

The low monthly Crown Advantage Platinum subscription (US only) fee includes perpetual software updates, OpenLane loyalty app, and 24/7 customer support. Provided hardware includes tablet bowler consoles, display controllers, peripheral controller, server, switches, and cabling—all maintained by the Sync One lifetime equipment warranty. Say goodbye to major capital hardware and software investments and surprise maintenance and upgrade costs.

New software releases happen several times a year, helping drive revenue increases and control costs with new entertainment, efficiency improvements, enhanced marketing automation, and additional management capabilities.

Sync One is the quickest, easiest, lowest-risk path to increased profits. Unlike a lease or finance program, there isn't a payout required at the end of the lease. Subscriptions are an operating expense, providing a tax benefit to operators.

IMPROVE CUSTOMER SERVICE AND MAXIMIZE PROFITS WITH SYNC'S GUEST MANAGEMENT MODULE.

INCREASED REVENUE

Sync's business-building features include Revenue Center analytics that identify which anchor attraction drives the most revenue from ancillary departments (for example, how much F&B revenue is driven by bowling). Actionable insights provided by the Revenue Center can help guide staffing and investment decisions that increase operational efficiencies and profits.

Multiple on-demand service options make it convenient for guests to purchase activities, food and beverages whenever the mood strikes, no matter where they are. Online Ordering simplifies the implementation of a successful takeout business, Online Reservations increases lineage, and Sync Service Kiosk increases average spend per visit. Whether online or in-center, all of Sync's POS portals consistently upsell and cross-sell on every transaction.

STREAMLINED OPERATIONS

Sync supports profitability with powerful tools that help centers improve operations, streamline service, and reduce errors. Sync Magnus automates attractions, OrderNow enables self-service sales at the lane, mobile POS improves staff efficiency to get orders to the kitchen faster, and Sync Service Kiosk reduces staff errors and giveaways. Sync's integrated, automated technology streamlines ordering, improves accuracy and efficiency and allows centers to reduce or redeploy employees—all while increasing spend (and guest satisfaction) every visit.

SYNC SERVICE KIOSK

Get guests to the fun faster with Sync Service Kiosk! Brunswick's new self-service kiosk is designed to alleviate your labor concerns while enhancing the guest experience. The fully integrated automated technology reduces wait times, streamlines ordering, improves accuracy, and upsells on every transaction, all while offering the instant gratification your guests seek. Guests are drawn in by the captivating digital displays and empowered to build and purchase their own personalized in-center experience including bowling, food and beverage, game cards, and other attractions.

Sync Service Kiosk's consistent sales presentation and upselling increases spend per visit while reducing wait times, engaging customers during the ordering process, and improving order accuracy.

Sync Magnus and the Sync Kiosk even automate the entire bowling and attractions purchase process, from taking reservations to checking in to issuing smart customer notifications all the way through issuing lanes when they're ready—without staff intervention. By reducing the demands on the front desk staff, centers are able to redeploy employees to compensate for staffing challenges. In fact, proprietors report that the Kiosk can do the work of 2-3 staff members during peak periods while offering an improved guest experience.

QUEUE WAITLIST MANAGEMENT

Provide exceptional guest service and speed up your check-in process with iQueue.

- Bowlers add their names, shoe size, coupon, etc. to the waitlist, receive text updates, and can provide group bowler information to make the check-in process quick and easy.
- Provides estimated wait times to take the guesswork out of managing a busy waitlist.
- Line busting: Text customers, receive updates, and organize priorities using a tablet and mobile-friendly interface.
- Capture bowler information for future marketing using Brunswick Cloud.

ATTRACTION MANAGEMENT

With embedded waivers and capacity management (timed access), Sync Magnus supports any attraction within your FEC. From trampoline parks to soft play areas, Sync automates the process to manage your guest flow and capacity, allowing you to manage everything in your center in one system. Sync's new Revenue Center reporting provides visibility to which attractions drive the most revenue, including ancillary revenue like F&B sales.

WAIVERS

Restrict access to attractions to only those guests who have completed your online legal waiver. Our cloud-based digital waiver can be used for any of your attractions such as ropes courses, ninja warrior gym activities, trampolines, and other extreme sports requiring legal sign-off before participation. Guests have the option of signing the waiver from any mobile device or PC before they arrive. Staff can quickly check waivers during the check-in process, confirming that only guests with signed waivers participate. Sync's release liability waiver is customizable, allowing you to collect the information you need.

FULLY INTEGRATED CASHLESS EXPERIENCE

All game card transactions [buy/spend value] directly flow through the Sync POS. Sync creates a seamless connection to EMBED, Intercard game card systems and Sacoa. The enhanced Intercard interface available with Sync Magnus supports cashless operations as well as imported revenue reports from Intercard.

ONLINE RESERVATIONS

Online Reservations—now compatible with the Sync Service Kiosk—are one of the strongest revenue-driving features of Sync. Data shows that 30% of online reservations are booked when staff is occupied attending to peak in-center activity. The certainty of having a lane available when customers arrive eliminates one of their leading objections about going bowling. With Sync's enhanced Internet Reservation capabilities, that sales bump continues to grow.

- Customers can reserve lanes, tables, or other resources via a computer, smartphone, or tablet from anywhere at any time.
- Customers can check in using the Sync Service Kiosk, for a completely staff-free reservation experience.
- Other products/packages (shoes, F&B orders, party packages, etc.) can be attached to a Sync Online Reservation.
- Auto-create a deposit (or full payment in advance) for Online Reservation, reducing the risk of holding lanes open for no-shows.
- Resource inventory is updated in real time as reservations are confirmed, eliminating the potential for overselling a time slot or resource.
- Bowlers' information such as number of bowlers, shoe size, etc. entered at the time the reservation is booked and then directly imported as part of their reservation, giving a smooth and seamless customer experience for your bowlers AND for your staff.
- Online Reservations tie directly into CRM, allowing customization options as well as bowler data to be stored in the cloud.
- Reservation confirmation email sent from Brunswick Cloud.

ADVANCED RESERVATIONS

Sync's Advanced Reservations are focused on consolidating and streamlining guest management throughout the center, resulting in seamless guest interactions. Easily move guests to and from different attractions through a fully automated process while providing top-notch customer service.

- Customers can purchase other items and/or packages including rental shoes and food and beverages when they make a reservation, either online or in-center at the Kiosk.
- Set your own reservation payment policies. You can require deposits (or full payment) to hold lanes, as well as prepayment for other items ordered in advance online.
- Keep reservation tabs open so you can easily add purchases made to the customer's bill.
- Prevent double-bookings by notifying staff of upcoming reservations on specific lanes.

LANE STATUS DASHBOARD

Sync's enhanced Lane Status Dashboard was completely redesigned to help front desk personnel get bowlers on and off your lanes more efficiently and profitably.

- Improved at-a-glance view of the status of each lane at every moment
- Immediate indicator of lane-on, lane-off, number of bowlers on the lane, elapsed time
- One-click access to score corrections function
- Global settings for standard lane prep for leagues and other special scoring arrangements
- Fully integrated with Online Reservations to automatically display scheduled reservations
- Streamlined check-in process all from one screen—configure lane assignments and scoring experiences, send names to the lane, add products, total the customer's bill, and more.
- Flexible pre- or post-pay configuration allows you to control the purchase/pay cycle however you see fit, or even change from one procedure to another for different days/times.
- Lanes are issued automatically from Internet Reservations and iQueue, including names, shoe sizes, F&B, and more!
- Quickly onboard loyal customers by scanning their OpenLane member ID from their phone to easily add loyalty points—or let them check themselves in using the Sync Kiosk.
- Send welcome screens to the appropriate lane(s), helping usher each party to their assigned lane.
- Lane Cleaning mode helps identify which lanes are ready to be cared for by staff and ensures you sell a fantastic product each and every time.

ORDERNOW

The highly visual and interactive menu exclusively available on the Sync scoring tablet makes it convenient for guests to order and reorder on-demand. Satisfy customers' desire for instant gratification and self-service, with OrderNow. OrderNow improves profitability by reducing or redeploying staff, increasing average check total, and streamlining operations with full integration to the POS system and direct delivery to remote order printers.

ONLINE ORDERING

Drive incremental revenue with Online Ordering. The intuitive, mobile-friendly menu makes it easier and more convenient for guests to place takeout orders. Online Ordering improves order-filling accuracy and inventory control to reduce waste and spoilage. The integration with Sync POS and direct processing to remote order printers ensures that your staff will be able to process the additional orders accurately and efficiently. Set up modifiers for appropriate products [e.g., pizzas, hamburgers, other specialty sandwiches].

SEAMLESSLY MANAGE GUESTS, SERVERS, AND TABS WITH ENTERPRISE-LEVEL RESTAURANT MANAGEMENT TOOLS

Table Management

- Straightforward interface for managing guests, servers, and tabs
- Set up the screen layout to mirror the actual arrangement of your tables on the floor.
- Cycle customers on and off your tables with individual time clocks/ bill tabulators for each table.
- Control individual table lighting from the front desk with an optional AC Controller.

Floorplan Management

- Customizable restaurant and center layout tool streamlines operations by reducing errors and facilitating faster table turns.
- Create a layout of your actual floorplan, making it easier for waitstaff to accurately place orders and deliver food.
- Available on your desktop as well as mobile POS devices

Menu Management

- Dynamic product creation and screen layout let any center build its optimal POS interface and functionality.
- Intuitive displays provide quick access to popular items.
- Streamline the process for the staff and optimize service for guests.

Beverage Control

- Beverages will not dispense without direct accountability per pour through Sync.
- Substantially reduce shrinkage/lost bar sales.
- Seamless integration of Berg and Azbar software

Integrations and Partnerships

- Kitchen Display System
- Labor Management systems
- Inventory Management
- Accounting

PAYMENTS

- Accept and process credit/debit/game/gift card payments with many of the leading processors.
- Apply percentage or dollar discounts to individual products or transaction totals.
- Allow guests to redeem OpenLane loyalty points for free or discounted bowling, food and beverage or other rewards you select.
- Add gratuities automatically or with each customer's individual payment.
- Brunswick Cloud integration/coupon scanning (including via smartphone interface/receipts/transaction data/metrics) available.
- Apple Pay/Google Pay/NFC support (available through select processors)
- Exclusive enhanced stored value features allow deeper integration to game card packages and entitlements.

ADDITIONAL POS HARDWARE

MOBILE SERVICE STATIONS

- Let your staff issue lanes by game time or person, edit add-ons, make bumper selections, add names, extend lane time, and quickly process prepaid waitlist customers right at the lane.
- A single tab for bowling, food, and beverage makes F&B ordering seamless.
- Fully integrated with Sync's lane-cleaning mode and lane status page, providing full visibility to all available lanes.

SERVER-FRIENDLY STATIONS

Choose from client workstations, all-in-one kiosks, or agile tablet options to mobilize and meet the needs of your tech-savvy workforce.

POS ACCESSORIES

- Cash drawers
- Cash readers
- Receipt printers
- QR and bar code scanners
- AC, light and time control

GUEST EXPERIENCE

SYNC BRINGS THE CUSTOMER EXPERIENCE FULL CIRCLE.

Sync Magnus offers unmatched functionality to address today's consumer expectations for outstanding service, convenience, personalization, and one-of-a-kind entertainment. Sync's ever-expanding features promote guest loyalty, increase spend per visit, and drive repeat business.

Powerful automated marketing tools make sure your center is top of mind during the Decision stage, with relevant content based on customers' behaviors and preferences. Several automated,

integrated solutions facilitate check-in, lane assignment, and onboarding to create a seamless Arrival experience. Sync's ever-expanding library of delightful graphics, features, and new games provides a Bowling experience that is unparalleled for entertainment seekers and competitive bowlers. The system even includes features that ensure your guests' Departure experience is a positive one, encouraging repeat visits and building long-term loyalty.

ENHANCED IN-CENTER EXPERIENCE

The bowling experience at your center is multifaceted, taking into account the total customer experience—from the ease of onboarding to the final frame, and everything in between. Sync was created with all this in mind. It’s designed to help you deliver the best overall customer experience, every hour of every day.

Sync’s suite of tools improve customer service from the reservation experience through check-in and F&B ordering. Sync Magnus automates the process for moving guests to and from different attractions while providing top-notch customer service, streamlining guest management, and providing seamless guest interactions with little or no staff intervention. Sync offers bowlers immediate access to specials ads and menus, and lets them send text messages to the front desk when a ball is stuck or they want a server to come to their lane. All of which improves customer service and makes guest visits more enjoyable, as well as more lucrative for you.

EXTENDED CUSTOMER ENGAGEMENT—SOMETHING FOR EVERYONE

Sync includes a collection of bowling games that your customers will love, netting you additional revenues. Unlike games offered on competitive systems, ours are incredibly simple and easy to play. Rather than bogging things down, these games actually accelerate the action on your lanes. Sync also offers many scoring games for two quite different modes of play [recreational/casual vs. league/competitive], with just the right touches included in each. There’s something for everyone, from corporate teams to kids’ birthday parties to competitive league bowlers.

SYNC SCORING VISION USER INTERFACE IS THE GATEWAY TO A PERSONALIZED BOWLING EXPERIENCE FOR GUESTS AND IMPROVED PROFITABILITY FOR YOUR CENTER

Inspired by the best-in-class digital streaming and e-commerce sites your customers interact with every day, Vision User Interface (UI) meets consumer expectations for highly personalized, self-guided, interactive experiences that provide immediate gratification.

Brunswick’s intuitive scoring interface focuses on the end-user experience by providing stunning visuals, personalized recommendations, and streamlined user interaction. Vision UI is the industry’s most engaging interaction point for bowlers, displaying all that Sync has to offer.

Vision UI reduces staff interaction required during onboarding and lane transitions with its intuitive design and optimized user flow. Tablet ads deliver dynamic cross-selling content that keep guests engaged and increase F&B and in-center spending. With Online Ordering, bowlers can browse and order any item from your menu whenever they are ready, further streamlining operations while satisfying consumer demand for instant gratification.

Vision UI’s improved guest experience keeps guests playing longer and drives repeat business. Vision UI provides greater visibility to entertainment options, using categories such as Family Fun Night or Something Different to make game recommendations. Keep your display relevant for each customer segment by selecting different featured games based on daypart. Guests are provided with plenty of options for unique experiences and lots of reasons to come back as Vision UI encourages guests to explore all Sync Scoring has to offer.

Vision UI takes personalization to the next level by allowing guests to create a custom profile in Sync with images uploaded from their mobile device. And Sync Scoring captures email addresses for future marketing, with multiple touch points throughout the games.

PATENTED MOBILE CONNECTIVITY

Brunswick has pioneered the opportunity for bowlers to use their mobile devices with your lanes! Vision UI allows bowlers to connect their mobile devices to customize their time on the lanes. Bowlers can pair Vision UI with the OpenLane app [see page 26] to create an even more personalized experience with images uploaded from their mobile device.

SCORING & GAMES

GAMES THAT ARE QUICK TO LEARN, EASY TO PLAY, AND WON'T SLOW DOWN PLAY PERFECTLY FRAME THE BOWLING EXPERIENCE FOR COMPETITIVE BOWLERS AND ENTERTAINMENT SEEKERS ALIKE.

SYNC SCORING

Your business depends on an array of customer segments from open play, kids' birthday parties, group events, and league bowling. They come to your center to bowl, and don't want to overcomplicate it. Sync Scoring offers a wide variety of scoring experiences designed with the unique needs of each of these customers in mind. All of the games are available for time and game bowling modes.

VISION UI

Using best-in-class streaming services as inspiration, Brunswick has developed Vision UI, an intuitive interface that delivers an elevated guest experience with personalized play and on-demand service options. The optimized user flow gets guests trying different games over 35% of the time, ensuring a relevant and engaging experience for everyone, time after time. Paired with Brunswick's patented ability to connect a mobile device, Vision UI offers a personalized bowler experience that is truly one of a

kind. From in-home entertainment to dining out, consumers expect streamlined and convenient interactions, which Vision UI delivers by selecting their experience, entering bowler information including email, connecting to their phone, calling for a service, placing food and beverage orders, and so much more. Vision UI provides the most engaging and intuitive interaction point for your bowlers, displaying all that Sync has to offer.

- All the experiences within Sync have been categorized for greater visibility.
- Ability to customize featured games by daypart
- Bowlers can upload their own profile or funny photos from their mobile device.
- Customers can pair their OpenLane app profile with Vision UI to create an even more personalized experience.
- Stunning visuals of your menu options along with convenient ordering options provide instant gratification for guests while driving incremental F&B revenue.

UNIQUE & EXCLUSIVE FORMATS

HORSE—EXCLUSIVE

This addictive game mimics the classic playground basketball game, challenging opponents to knock down specified pin configurations instead of making hoop shots. [Requires GS-X, GS NXT pinsetter or Brunswick string pinsetter to play.]

MYSHOT—EXCLUSIVE

The myShot spare trainer lets bowlers pick and repeat attempts at a favorite spare pattern. Perfect for both expert bowlers who want to refine their techniques and competitive friends looking to challenge each other.

A SMALL SELECTION OF THE GAMES AND GAME MODES ARE SHOWN. VISIT BRUNSWICKBOWLING.COM TO SEE THE COMPLETE SELECTION OF GAMES AVAILABLE

10-FRAME GAMES

RIVAL RUMBLE

This “best frame” team competition is ideal for corporate and group events. Only the best individual score of each frame counts toward the composite team score. Teams get to choose from creative and dynamic mascots like the UnbeataBulls, Lil’ Dragons, Killer Bees, and more. At the end of the competition, every player earns an award based on their performance. It’s the ultimate team-building activity.

THE LEAGUE

League players love seeing real-time, player-specific data including ball speed, max score potential, and frame-by-frame history of pins made/missed by each bowler. Tracks bowlers and teams on any lane.

PIN PALS

Lovable and mischievous Pin Pals deliver giggles and grins with their offbeat antics and penchant for mayhem, all in eye-popping 3D.

KAPOW!

Straight from the comics, Brunswick delivers Ka-POW! Designed for open play, with a customized background and an emotionally invested design, KaPow captures all of the action of the game with a customized background and fun style that will keep bowlers coming back. This game supports regular scoring, with larger than life visuals and action-packed excitors to blow away your guests.

PINPIX

It’s a snap to surprise and delight your guests! Only PinPix lets guests use images from their mobile devices or take new photos from the lane tablet or their phones. Guests love capturing 10 frames of fun using filters and photo-editing tools that rival the ones in their favorite apps. And only PinPix lets players photobomb each other while collecting hats, beards, glasses, and other wacky accessories.

5-FRAME GAMES

ANGRY BIRDS BOWLING—EXCLUSIVE

Angry Birds comes to life with challenging play—and hours of replay—as players pursue greedy, egg-stealing pigs. Join centers around the world that are leveraging one of the best-selling brands to bring real revenues to their centers.

NEW - FRIENDZY

Splash photos of yourself and your friends all over the lanes and hit targets to keep the laughs coming and memories being made. Exclusive to Spark, this game offers the kind of personalized, unique experiences only available at Sync- and Spark-equipped centers.

E-Z BOWLING

This 5-frame/1-ball-per-frame game is the perfect activity for young children's birthday parties.

CREATURE FEATURE

This 5-frame/1-ball-per-frame game features a gallery of spooky fun monsters that play along, making it just the thing for young children's birthday parties.

SCORING HARDWARE

SCORING CONSOLES THAT DELIVER STYLISH AESTHETICS AND TROUBLE-FREE PERFORMANCE

Bowlers will love your new Sync scoring consoles. These great-looking devices are also made to take the punishment of constant use, so they keep working year after year. What's more, Sync hardware is designed to save you money, drawing on the latest technological innovations to add to the equipment's life.

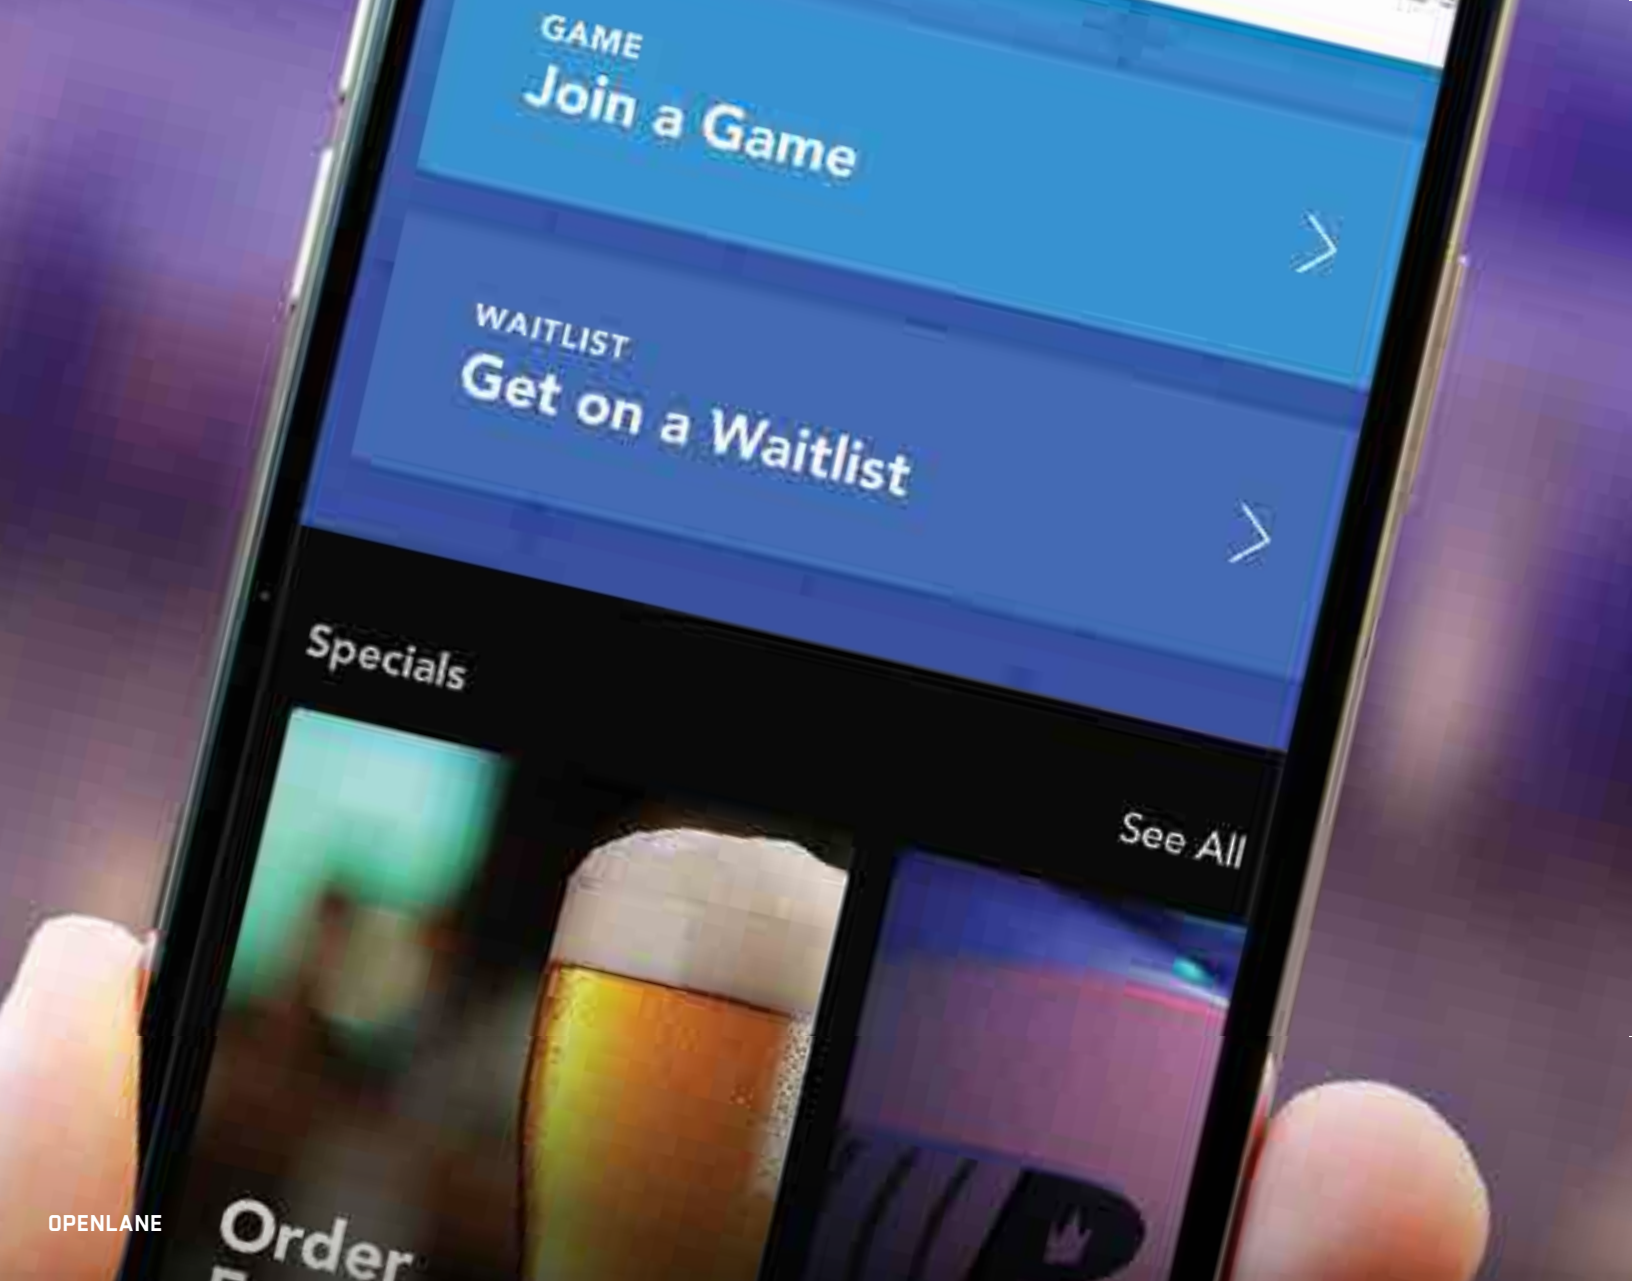

TOUCHSCREEN TABLETS

- 10.4" LED touchscreen tablets
- Corning Gorilla® glass for longer service life (tablet only)
- Built-in, two-way intercom
- Commercial-grade construction to withstand high-traffic use
- Touchscreen tablet features extended-life 50,000-hour LED backlighting
- Mount on single-pedestal, dual-pedestal, or tabletop brackets
- Integrated camera for delivering a customized bowling experience
- Fully integrated with the Brunswick Cloud for software updates and guest interaction

OVERHEAD

- Samsung HD monitors
- Built-in, two-way intercom
- Commercial-grade construction to withstand high-traffic use.
- Fully integrated with the Brunswick Cloud for software updates and guest interaction.

CONSUMER MOBILE APP

SYNC'S COMPREHENSIVE AND FULLY INTEGRATED MARKETING PLATFORM MAKES IT SIMPLE TO PLAN, CREATE, TARGET, DELIVER, AND MEASURE YOUR MARKETING.

Attract more customers to your center, increase their spending, and encourage them to return more often with Sync's powerful marketing tools. Enjoy a seamless process of customer database creation, content design, campaign distribution, redemption, and analysis, all fully integrated with Sync scoring and management. Get campaigns up and running in as few as five clicks with provided templates. Access Sync Marketing anywhere, anytime via the Brunswick Cloud and enjoy the peace of mind of knowing your customers' data is securely stored and protected from loss.

EXTEND AND ENHANCE THE BOWLING EXPERIENCE—AND YOUR MARKETING—WITH OPENLANE AND SYNC PASSPORT.

OPENLANE®

OpenLane creates a digital membership card for customers that can be scanned for every purchase to earn or redeem points, and also allows members to get on the waitlist or get their names on the lanes even faster.

The OpenLane mobile app, custom-developed by Brunswick exclusively for the bowling industry, makes it possible to engage with and extend your brand message to even the hardest-to-reach customers. Your guests will love the convenience, personalized rewards and offers, performance tracking, and enhanced guest experience these mobile, digital platforms provide. And you'll love how these programs keep your center top of mind while providing customer insights that enable deep marketing segmentation. Through integration with Sync CRM, you'll be able to create messages that are so targeted they feel personalized. OpenLane helps you establish credibility, create value, and nurture the relationships your customers have with your center in a scalable way.

Consumers are accustomed to being able to "do it all" from their mobile devices, whether it's booking travel, shopping, or paying for coffee. With OpenLane, your guests can make their experience their own while they're in your center. OpenLane drives traffic, increases spend per visit, and encourages repeat visits across all customer segments by making it easier and more rewarding to connect with your center, whether it's by joining a waitlist or redeeming a digital offer.

LOYALTY PROGRAM

Your customers know your center and now you can know your customers. The OpenLane app creates a digital membership card for customers that can be scanned for every purchase to earn or redeem points, but also allows members to get on the waitlist or get their names on the lanes even faster.

- Reward guests with points for various achievements (games played, number of visits, etc.), and can guests earn points back, free games, coupons, and other rewards.
- Reward guests for not only spending, but also for interactions such as visit frequency, bowling in a league, inviting others to sign up for OpenLane, and other center-defined activities.

WAITING LIST

- Let guests view your entertainment options and take their place on your waitlist, all while skipping the line.
- Let guests plan their time in your center by selecting the options that fit their schedule, all from their mobile device.

STAT TRACKER

- Allow bowlers to automatically track stats and scores and review and share their time on the lanes.
- OpenLane creates a spot for bowlers to relive their glory on the lanes with customized scoresheets, detailed statistics, and easy-to-use sharing options.

PERSONALIZED PLAYER PROFILE

- Sync lets bowlers connect their mobile devices to the scoring system.
- Bowlers can upload and edit their own photos to the scoring system, displaying them in fun and engaging ways.

Sync's main dashboard lets you view your most effective offers and the total revenue (bowling, F&B, in-center spending) associated with each offer

High-quality imagery and content to create targeted marketing campaigns

View each offer, the campaign(s) it's part of, and total revenue generated

SYNC AUTOMATED MARKETING

DATA COLLECTION

OFFER MANAGEMENT

AUTOMATED MARKETING

SYNC'S COMPREHENSIVE AND FULLY INTEGRATED MARKETING PLATFORM MAKES IT SIMPLE TO PLAN, CREATE, TARGET, DELIVER, AND MEASURE YOUR MARKETING.

SYNC AUTOMATED MARKETING

Attract more customers to your center, increase their spending, and encourage them to return more often with Sync's powerful marketing tools. Enjoy a seamless process of customer database creation, content design, campaign distribution, redemption, and analysis, all fully integrated with Sync scoring and management. Get campaigns up and running in as few as five clicks with provided templates. Access Sync Marketing anywhere, anytime via the Brunswick Cloud and enjoy the peace of mind of knowing your customers' data is securely stored and protected from loss.

DATA COLLECTION

Build and maintain a single customer relationship management (CRM) database for all of your pertinent customer information with Sync Marketing. Key customer information (name, birthday, email, and mail addresses) is collected automatically from customers at several points, including your website, online reservations, bowler check-in, bowler entry, and end-of-game offers. You can also import records from existing databases. Customers can update their personal information anytime, keeping the database accurate with minimal effort on your part.

Sync prompts customers to provide additional information such as interests and activities. You can be sure you're communicating with the right customers to meet your business objectives when you segment customers based on their demographic, psychographic, and behavioral information. Ensure your communication cuts through the 3,000 other marketing messages they receive daily by tailoring your campaigns based on customers' wants and needs. Being a source of relevant information positions you as a trusted expert and fosters a relationship between your center and your customers, which leads to long-term loyalty.

DRIVE TRAFFIC AND INCREASE REVENUE WITH ENGAGING CONTENT AND COMPELLING OFFERS.

CAMPAIGN CREATION

Whether you are a team of one or employ a fully staffed marketing department, creating engaging print and digital materials is a snap with Sync. The platform supports an extensive variety of channels including email, social media, text messaging, and digital marketing (in and out of the center) to support top-of-mind awareness and drive incremental spending.

Comprehensive campaigns can be populated with your center's information and launched in just five clicks. These campaigns are designed to efficiently and effectively get the word out about your most important offerings, including kids' birthday parties, holiday and open play events, and food and beverage promotions.

Ad templates provide flexibility to customize your message, edit fonts, and select images. The built-in guidelines ensure your work always looks professional and consistent. All the templates include Sync Social, maximizing your marketing reach through convenient social links that let your customers share your information with their network on Instagram, Facebook, and Twitter.

When you're ready to go all-in, bring your brand to life by creating one-of-a-kind designs with Sync's intuitive design tools and rich library of visual assets. From beautiful, high-resolution photography to complete cross-channel campaigns, the Sync design suite has everything you need to make sure your communications get noticed and drive results. We're always adding to this library so your materials will never feel tired. Start reaping the advantages of the most powerful, automated content creation engine ever built into a bowling center network system.

OFFER MANAGEMENT

Did you know that targeted offers drive 18x more revenue than broadcast marketing? Drive customers to take actions that support your business objectives. With Sync's Offer Manager, you can:

- Create offers and coupons to distribute via print and digital campaigns.
- Increase perceived value and create a sense of urgency, further incentivizing your customers.
- Make your offers more relevant and more likely to drive business and revenue by personalizing them, based on the customer data or behaviors you've gathered in Sync.
- Increase efficiency by eliminating the administration required with paper coupons.
- Eliminate the risk of error and theft knowing only eligible products will be redeemed.
- Know exactly how much revenue is generated by each and every coupon, thanks to Sync's digital offer tracking.
- Make informed business decisions using insightful and actionable analytics, such as most effective offers and times of year, valuable customer segments, and more.

ANALYSIS

INCREASE FREQUENCY AND SPEND PER VISIT WITH ACTIONABLE INSIGHTS FROM INTEGRATED ANALYTICS.

DISTRIBUTION

Today, there are more mobile devices in the world than there are people! This access to technology allows your audience to mindlessly transition from one channel to the next throughout their day, creating an opportunity for your brand to be where they are, 24/7. Sync's Ad Manager ensures your brand shows up consistently and continuously across these channels in order to drive deep engagement. Preschedule campaigns for specific days, times, lanes, and customer segments, throughout the year and beyond. You can also establish automated distribution triggered by specific interactions with your center. Implementing event-triggered digital marketing can reduce your direct mail budget by up to 80%. Attract new customers and stay top of mind with your existing audience using digital marketing including email, social media, mobile, and text messaging. Increase spend-per-visit by adding integrated in-center marketing that upsells and cross-sells all of your offerings throughout the center. Set a schedule to automatically display in-house ads for upcoming special events, food and beverage specials, pro shop deals, and other offerings. Add a new revenue stream for your center by selling and displaying advertising for other companies.

SUPPORTED CHANNELS INCLUDE:

- In-game ads — Display ads on overhead monitors while games are in progress, instead of just between games or when a lane is off. Sync even lets you divide the monitor to scroll an ad across the bottom of an active scoresheet. It's a surefire way to get more eyeballs on your ads — and ring up more sales.
- F&B teaser — There is a new Food & Drink button on the primary navigation menu in Vision UI. When a customer clicks it, up pops a tastefully arrayed menu of current offerings. Create and group these deals with ad modules you design in Brunswick Cloud.

- Digital Signage — Capture guests' attention and cross-sell all of your offerings throughout the center, from concourse to restaurant and beyond, with this exclusive Brunswick video display monitor system. Give every guest the info they need for an enhanced experience they'll appreciate. Set a schedule for various offers and displays, with Brunswick Cloud doing the rest automatically.
- Reservation confirmation — Upon booking their event, guests receive a confirmation combined with additional advertising on the other offerings at your center. As their event draws close, they receive a reminder that includes promotions for those other offerings.
- Social media
- Email
- Receipt

There's no easier or more effective way to plan, coordinate, and execute comprehensive and highly effective marketing campaigns for your center.

ANALYSIS

With Sync Marketing, you no longer have to wonder if you're wasting money on marketing, not knowing which efforts are working and which aren't. Integrated tracking and deep analytics make it possible to measure precisely how your marketing efforts are impacting revenue and make informed decisions about your marketing spend. Detailed reports provide deeper insights such as which messages, offers channels, and customer segments are performing best. A consolidated, at-a-glance overview of all your marketing messages makes it easy to understand the total revenue (bowling vs. F&B vs. in-center spending) associated with each offer. Sync Marketing makes improving your strategy even easier with automated recommendations based on your top performers.

“Sync has been a huge benefit to our centers. We’ve already seen our bar business double on league night, and our half-price appetizer sales are climbing, just by using in-game advertising. The system allows me to market to bowlers during their time on the lanes. Without Sync, that wouldn’t be possible.”

BACK OFFICE

A CENTER MANAGEMENT SYSTEM THAT WORKS AS HARD AS YOU DO

For decades, everyone has known that Brunswick means business when it comes to scoring and management systems. After all, we invented the first automatic scoring system. Sync helps you master the many thankless back-office tasks, like automatically downloading software, that are vital to keeping centers above board, running smoothly, and in the black.

DAILY DASHBOARD

- Provides a snapshot of the center’s performance at any moment
- Tabulates sales by category, total lineage by frames/hours
- Flags trouble spots in your center that need addressing

SECURITY

- Session control by terminal with manual or automatic logoff—ideal for F&B server stations
- New log-in/off features with optional card access or pin
- Limit access to certain functions by individual or rank/title.
- Waitlist analytics help you identify how well you are handling high volume times in your center.

MEMO

- Send messages and track open rates.

REPORTING & ANALYTICS

Intelligent Reporting

Data is power (and profits) when harnessed by Sync Magnus. Quickly call up at-a-glance vignettes to compare one period to another, discover which attractions are most profitable, find out which employees generate the most sales (or voids), or see how one center is performing versus another. Sync makes reports easy to access from anywhere, anytime, via the Brunswick Cloud.

Sync provides invaluable alerts for everything from unusually high pinsetter errors (napping mechanic?) to too many manager overrides (potential fraud?). Sync even provides you with bimonthly reports to let you know how your center is performing compared to others, nudging you to review your marketing strategy to meet your goals.

- Powerful and flexible reporting for all financial, lane usage, and inventory usage needs
- Comprehensive audit preparation, XML, or CSV-based interface supports modern accounting platforms.
- Ability to schedule reports to be emailed automatically
- Advanced reporting and business analytics
- Flexible/customizable sales reports
- Easier auditing and advanced fraud protection
- Export data in XML format into popular accounting systems.

Sync seamlessly interfaces to a number of systems to provide endless flexibility.

For more information on our partners, please visit brunswickbowling.com/pos.

INVENTORY MANAGEMENT

Inventory and COGS calculations shouldn’t be a long and difficult process, and Sync helps you to quickly analyze and optimize your food and beverage operations. Sync integrates with multiple inventory platforms like Yellow Dog and Restaurant365 to quickly export detailed sales data for analysis in those platforms.

- Enjoy lane, locker, and rental control with Sync’s Inventory Management feature.
- Sync includes modules that make it a snap to manage banks of lockers, helping you maximize revenues and reduce the time it takes to manage them.
- For better billiards, restaurant management, and other rentable assets (e.g., party rooms), Sync lets you set up the screen layout to mirror the actual arrangement of your tables on the floor.

LEAGUE AND TOURNAMENT MANAGEMENT

Sync supports league and tournament business by incorporating special features to handle the record-keeping, administration, and other hosting duties that these events require. Sync integrates seamlessly with LeaguePals and CDE League and Tournament applications to automate every aspect of league management, including prize-fund tracking. What’s more, Sync lets you set up “lite leagues” to accommodate regular groups that do not conform to your normal league protocols or use your administration.

LEAGUEPALS

- LeaguePals is the first and only cloud-based league management platform for league scoring, online payments, and accounting.
- Bowlers can pay online—either through automated recurring payments or each week—which eliminates the potential for theft, simplifies accounting, and saves time.

PINSETTER CONTROLS

Sync automatically powers down pinsetters when a lane is not in use, conserving energy and trimming your electric bills.

SYNC CHARITY ROUND UP

Charity Round Up provides a fundraising solution that is convenient for customers and simple for center staff to track and account for. Simply create an account for a given organization within Sync and enable Charity Round Up for future transactions. When a customer is cashing out a transaction, they are provided the option of rounding up their purchase (and, if desired, including an additional donation). The rounded-up portion and any donation is placed in the organization’s account. At the end of the fundraising period, the center simply confirms the balance in the account and writes a check to the organization.

LABOR MANAGEMENT

Wages and salaries are one of the largest costs in every center’s budget; at the same time, making and managing employee schedules has always been a tedious and tricky task. Sync addresses both these issues head-on with TimePro®, the best labor management system ever incorporated into a bowling scoring and management system.

- Easily develop work schedules to cover all center manpower needs while accommodating for each individual’s scheduling restrictions [days/hours each person can/can’t work, min/max hours per week/month that each individual can work, etc.].
- Powerful analysis and reporting to flag potential and actual issues, including overtime, insufficient hours to comply with workers’ requests, absenteeism
- Seamless integration with optional time-clock hardware/software, reconciling schedules with actual hours worked by individual employees
- Real-time sales reporting for better labor cost management

TAX MANAGEMENT

- Tax control mode allows products to be switched between taxable and nontaxable.
- Select applicable taxes by product or department.
- Apply up to 15 taxes per product.

LeaguePals

SPARK

LIGHT IT UP! THE INDUSTRY'S FIRST AND ONLY IMMERSIVE,
INTERACTIVE BOWLING EXPERIENCE.

SPARK

Spark surrounds the bowler in a mesmerizing, one-of-a-kind experience as it delivers the latest technology and entertainment trends to your lanes. Spark's energy starts at the scoring tablet and flows through the settee area, down the lane to the pins, surrounding the bowler in mesmerizing graphics.

LEVELS THE PLAYING FIELD

Designed for casual and novice bowlers alike, Spark games introduce new rules and ways to earn points. Spark gives bowlers of all ages and skill levels a chance to win. Regardless of experience, Spark provides a one-of-a-kind fun, competitive experience for everyone!

VERSATILE ENVIRONMENT FOR EVERY MARKET SEGMENT

Spark engages every segment of entertainment seekers with software-driven technology and innovation that are built for tomorrow but delivered today. Attract all segments of consumers, from tech-savvy families to professionals to millennials. Whether they're looking for wholesome family activities, unique date night destinations, or interactive birthday party, group, and corporate outings that promote social connection, Spark incorporates the kinds of technology they use every day, in a whole new way.

SOFTWARE-DRIVEN TECHNOLOGY

Spark's software is fully integrated with Sync. The system is turned on and off based on Sync scoring settings, reducing staff intervention and maximizing the life of the projectors. Sync's Vision User Interface promotes the Spark experience to guests with compelling graphics.

UNIQUE MEMORY-BUILDING EXPERIENCES

Spark encourages socialization as it creates countless Instagram-worthy moments for guests, revitalizes consumer perception and interest in bowling, and provides an experience they are willing to pay more for. Spark's dynamic content keeps the experience fresh frame after frame, providing a unique, can't-do-this-at-home experience that makes memories and keeps guests coming back for more.

LIGHT IT UP!

SPARK DRIVES REAL REVENUE: ON AVERAGE CENTERS REPORT PRICING INCREASE OF 25-30%!

SCORING TABLET SELECTION

EXCLUSIVE GAMES

NODES

SPARK'S FAST, FUN, ENGAGING GAMES ENCOURAGE SOCIALIZATION WHILE LETTING BOWLERS CHOOSE THEIR OWN ADVENTURES.

UNIQUE AND EXCLUSIVE GAMES

Guests can select their Spark experience directly on their Sync tablets, choosing from more than 17 animation themes and even projecting their own photos onto the lane. Spark's dynamic content keeps the experience fresh frame after frame.

Spark also brings your guests' favorite Sync games to life on the lanes, from the mass appeal and brand power of Angry Birds to the team-building competition provided by Rival Rumble. And the lovable PinPals' silly antics are now larger than life.

Developed exclusively for Spark, Boom Bots turns the lane into an interactive part of the scoring experience. Boom Bots enables guests to score by hitting targets on the lanes as well as pins, supercharging the fun for casual bowlers while staying true to why guests are in the center—to hit pins.

Spark's exclusive Heads-Up Display™ projects scores and stats directly on the lanes.

NODES

Brunswick has partnered with TouchMagix™ to introduce technology that revolutionizes the on-lane projection experience. Spark's hardware automation simplifies ongoing management, and advanced laser projection technology lowers total cost of ownership.

- No moving parts, no components accessible to guests
- Operate using existing Sync scoring tablet.
- Multiple configurations available to optimize the experience for your lane length and budget.
- Each Spark node contains an integrated projector, tracking sensor, and IR lighting.
- Light Ring at the base of each node indicates the system status and it just looks cool!
- 20,000+ hour laser projector lamp life.

SEEING IS BELIEVING.

Schedule a live demo and see firsthand Spark's immersive, interactive game play. Light it up!

BOWLING FURNITURE THAT IMPRESSES EVEN THE TOUGHEST CRITICS—ROLL AFTER ROLL, NIGHT AFTER NIGHT.

Center Stage provides comprehensive furniture solutions for your entire facility, from the lanes to the restaurant and beyond. Choose from a wide variety of components—sofa seating sections, coffee tables, dining tables, freestanding bar stools, ball storage, and more—that can be arranged in practically infinite ways to meet your center’s needs. Center Stage delivers performance, flexibility, comfort, and style to fit your business needs and your brand with living room-style seating and traditional dining-style arrangements.

VERSATILITY

Center Stage modular furniture was created with versatility at the core. Select from a wide range of components to fit any space and operational model and coordinate your selections with masking units, lanes, ball-return hoods, and scoring pedestals. Make quick set changes in minutes to prepare for league bowling one day, a party on several lanes that night, and open bowling the next day. Its modularity and easy reconfigurability let Center Stage play multiple roles, supporting single-lane privacy or multilane interactions. Use Center Stage to support and visually represent your brand with furniture for every corner of your facility, from the bowlers’ area and concourse to the restaurant, bar, and lounge.

DURABILITY

Brunswick offers the industry-leading 10-year limited warranty on our Center Stage modular furniture. Robust construction delivers maximum durability to perform for years in even harsh bowling environments. Every component has been stain- and wear-tested and passed BIFMA Plus standards at a certified independent laboratory. Center Stage modular furniture is proudly made in the USA, which allows for greater control over options, quality, and cost. It even qualifies for LEED points from the U.S. Green Building Council (USGBC) in the following categories: Materials & Resources, Indoor Environment Quality, and Innovative Design.

COMFORT & CONVENIENCE

Center Stage furniture is designed with the ideal proportions and details to optimize player flow and F&B sales while enhancing the guest experience. With optional UL-listed power and USB ports, bowlers can charge phones and laptops in the bowler area using flush mount, spill-proof outlets. Thoughtful wire management keeps all cables organized and out of sight. For bowler convenience and comfort, integrated storage solutions keep shoes, bags, and other personal items right within reach but out of the way.

Center Stage furniture provides ergonomic comfort with lumbar-sloped backs and spring support seats that encourage customers to spend more time and money in the bowler area.

EASY TO MAINTAIN

Center Stage furniture has been designed with simple and smart features that make cleaning and maintenance a breeze. Brunswick exclusive “ganging” brackets secure modular components when in use and easily unlock when it’s time to rearrange or clean. Adjustable-height leg design allows for cleaning under seats and tables even while bolted to the floor.

Sewn corners are properly finished and are not susceptible to bowler damage.

The commercial grade woven and coated fabrics outperform the leading competitor and look great doing it.

With its thicker seat and ergonomically correct back height, as shown against our competitor, Center Stage is built to provide a comfortable seating environment. The taller back also provides just the right amount of separation for privacy between lanes.

Multifunctional legs keep Center Stage 6" above the floor—designed specifically to allow cleaning equipment easy access.

No-sag springs and premium foam used in Center Stage are more durable, providing years of comfort and virtually no maintenance costs.

Metal-to-metal connection points in all critical areas.

The innovative leg design allows the legs to be easily attached to the floor and leveled. Multiple furniture pieces can be attached together with an easy-to-use ganging bracket, creating a stable and secure furniture system.

MODULAR

ONLANE DINING

TUFTED FURNITURE

PRODUCT LINE DETAILS

Center Stage bowling furniture includes a wide variety of modular and freestanding components that can be arranged in practically infinite ways to meet your center's needs.

SOFT SEATING

MODULAR

Elegant design with softly sculpted sides and back, Center Stage modular components add a residential vibe to the bowlers' areas and other lounge spaces. Modular design allows straight units to be arranged and rearranged to create endless configurations.

Add a convenient place for your bowlers to rest between turns with versatile half-moon and quarter-moon seats. The half-moon seat works perfectly at the end run of modular seats, or put two together to make a large ottoman. The quarter-moon is designed for your first and last lanes to be used on the end of a run of modular seats, or put four together to make a modular ottoman. Available in two leg finishes and endless Endurance EPU Vinyl and fabric options. Ships fully assembled.

- Variety of section sizes and shapes lets you set up the bowler areas and concourses in virtually unlimited ways—arrange in straight runs, semicircles, or ovals.
- Multiple configurations for 9', 12', or 15' deep bowlers' areas with variable configurations for 3 to 6 seats per lane.
- Extra durable construction with 7/8" upholstery-grade plywood frame.
- Upholstered in heavy-duty, contemporary fabrics that are water/stain-resistant and meet BS5852 and EN1021/1-2 cigarette-match free codes.
- Numerous standard upholstery patterns and colors to choose from
- Tufting available on some pieces.
- Sofas are easy to move and feature a 6" leg height and open space between seat and backrest, making cleaning a breeze.
- "Ganging" bracket easily locks into place, keeping furniture neatly and securely aligned.
- Freestanding ottomans add a seat wherever needed.
- Removable seat cushions allow for in-center replacement.
- Tiered pricing to meet multiple price points.
- 10-year warranty.

ONLANE DINING

Center Stage's Onlane Dining layouts bring food and beverage service to the lanes. Keep customers at the lanes longer with plenty of space to enjoy a full meal. Center Stage provides space to store shoes and personal items under the tables and out of the way. Tables can be attached to the floor or freestanding. Scoring displays can be added as well.

TUFTED FURNITURE

Brunswick's tufted furniture option provides outstanding performance, flexibility, and show-stopping style. This versatile, time honored design is available in a wide variety of colors, which coordinate flawlessly with the complete Center Stage offering, making it ideal for a unique look in a VIP area or for an added touch of style across the center.

BUILT FOR YOUR ENTIRE VENUE

Center Stage™ modular bowling furniture gets rave reviews from customers for superior comfort, looks, and convenience, as well as from center owners for outstanding performance, flexibility, and show-stopping style. Whether you are looking to make your VIP boutique section stand out or create a beautiful cohesive look across your entire center, Center Stage has what you're looking for. Brunswick is committed to being your one-stop shop to furnish your center.

BOWLERS' AREA

Center Stage creates spaces that keep guests focused on what really matters: the family and friends they came with and the action on the lane. Catering to the needs of corporate groups, parties, leagues, and recreational bowlers requires flexible solutions—and Center Stage furniture by Brunswick was designed to deliver. The line's modularity and the combination of soft and hard seating options make the Center Stage line the perfect solution to outfit every inch of the center from the bar and restaurant to the lanes.

CONCOURSE FURNITURE

Brunswick's Center Stage™ has endless options to outfit your concourse or lounge areas. Choose from our 12 modular seating pieces to create a custom configuration, or for a more classic feel, check out our sofa, love seat, and chair offerings. Coordinating tables and sophisticated ball storage solutions complete your furniture needs. With our durable fabric and vinyl options, your center will have a cohesive look and feel, from pinsetter to bar.

RESTAURANT, BAR, AND LOUNGE FURNITURE

Our restaurant furniture coordinates with Center Stage. With 65 options that include coffee, standard, and bar height tables, we are sure to have what you need. Add any of our coordinating seating and create a comfortable yet durable environment for your guests. We also have booth options that will cozy up your restaurant/bar area. With highly durable fabrics that have proven to perform beautifully in the bowling environment, it is an easy transition to your eating area.

- For small and standard ball sizes.
- Ideal for VIP rooms or your whole center.
- Clean, modern design, updated engineering, and added durability.
- Whisper-quiet design.

CENTER STAGE SURFACE BALL RETURN—DUCKPIN

- Choose the small ball return for use with Brunswick's Duckpin Social™.
- Ideal for VIP rooms or your whole center.
- Clean, modern design, updated engineering, and added durability.
- Whisper-quiet design.

PINSETTERS

KEEP YOUR LANES RUNNING NONSTOP WITH THE LEGENDARY RELIABILITY

AND PERFORMANCE OF BRUNSWICK PINSETTERS.

Brunswick®

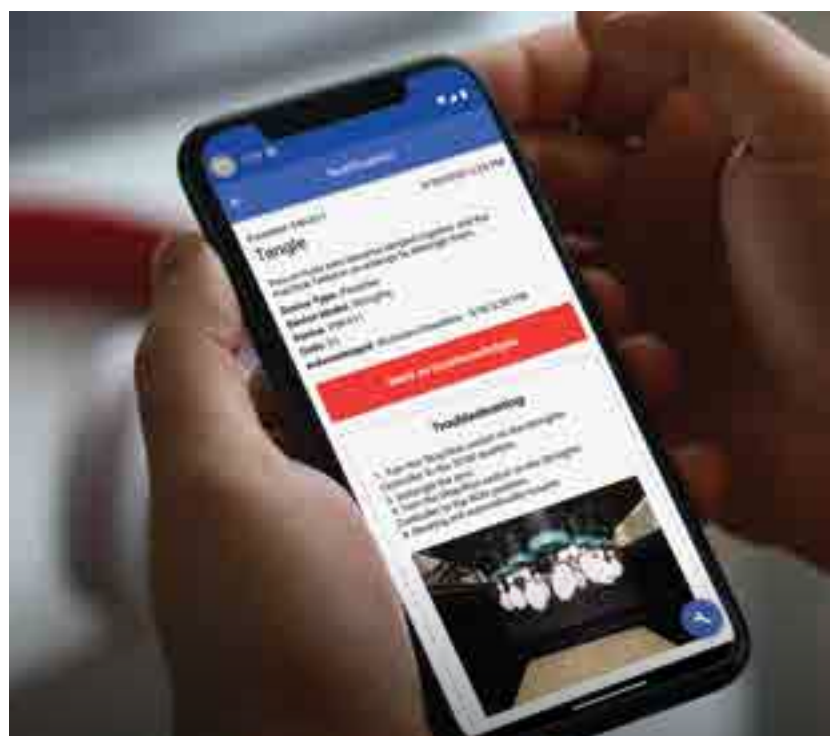

360 CONTROLLER

ON-DEMAND PINSETTING

PRONTO OPERATIONS MOBILE APP

PINSETTERS

Brunswick pinsetters have long set the standard for performance and reliability. Unique in the industry, Brunswick pinsetters are powered by technology that's capable of growing with your center's evolving business needs. They're designed to reduce labor requirements, enhance the guest experience, reduce cost of ownership, and provide peace of mind. Only Brunswick pinsetters provide the following features.

360 CONTROLLER

The 360 Controller for GS NXT and StringPin® pinsetters provides real-time machine setting control and troubleshooting with a touchscreen system and user interface that's easy to use, powerful, and versatile. Seamless integration with the Sync® scoring and management system and the Brunswick Cloud take center operations and maintenance to the next level. The 360 Controller features a design that allows endless updates in functionality and features. An intuitive, easy-to-learn touchscreen system and user interface for troubleshooting, paired with real-time machine setting control, make it easy to use, powerful, and versatile.

Access is easy too, with installation on the rear of the machines. The 360 Controller's modular design means that components can be quickly replaced in the field by center staff.

- Upgradeable as new features are added
- User maintainable (no need to send to a repair center)
- Multiple modes of operation
- Scorer
- TenPin
- Practice/on-demand pinsetting
- Cleaning
- Diagnostics
- Error code, machine state, and diagnostic display
- Vector and Sync scoring compatible
- 360 Controller is shown in the standard position fixed to the back of the pinsetter

ON-DEMAND PINSETTING

The unmatched pinsetter control available to center staff and bowlers puts the power of Brunswick GS®-Series and Boost ST® dual purpose string pinsetters in their hands. Brunswick's exclusive on-demand pin setting feature and integration of Sync scoring system, available with GS-Series and Boost ST string pinsetters, lets bowlers enjoy games and league training features that require complex pin arrangements and mechanics. The myShot spare trainer lets bowlers pick and repeat attempts at a favorite spare pattern, making it perfect for expert and league bowlers who want to refine their techniques, as well as competitive friends looking to challenge each other.

PRONTO CENTER OPERATIONS MOBILE APP

Pronto is the indispensable center operations mobile app that notifies staff when bowling center equipment requires attention. This Brunswick exclusive saves staff time and ensures you get the best performance from your Brunswick products. Pronto simplifies and streamlines pinsetter maintenance with easy-to-understand error codes and troubleshooting guides for Boost ST, StringPin, GS-X, and GS-NXT machines. Pronto provides real-time pinsetter operational alerts, acknowledgment, and troubleshooting. Cloud-based data tracking allows access to critical performance reporting from anywhere.

Pronto is included with the Crown Advantage Platinum and Gold programs, compatible with any smartphone, and fully integrated with Sync.

BACKED BY THE BEST IN THE INDUSTRY

Backed by a rock-solid warranty, all StringPin pinsetter components are covered for one year, when installation is completed by an authorized installer. Brunswick products are installed by skilled, authorized installers who are held to stringent guidelines and are subject to random quality audits to ensure that each installation meets the industry-leading standards of Brunswick. To maintain product installation expertise, Brunswick conducts continuous installation training for all authorized installers.

GS NXT™ PINSETTERS

WE SET MORE THAN PINS. WE SET STANDARDS.

The GS NXT sets new standards as the next generation of freefall GS Series pinsetters, featuring the highest frames-per-stop (FPS) rating in the industry. Brunswick's years of experience, advanced engineering expertise and ability to integrate the latest technology have culminated in the most forward-thinking freefall pinsetter ever designed.

EASY TO OPERATE, SIMPLE TO MAINTAIN

The GS NXT provides improved access to all motors and drivetrain from the lane surface for ease of maintenance and improved safety. It's easily serviceable by staff who aren't career-long bowling mechanics, with integrated self-diagnostics and easy-to-read LCD displays that simplify troubleshooting. A series of unique design features and built-in safeguards protect staff and bowlers when power is on while allowing maintenance personnel to view all parts of the machine, system operations, and diagnostics. Reduced machine height [by 25%] provides increased versatility.

EFFICIENT

GS NXT delivers an even lower cost of ownership by further reducing labor requirements, parts, and energy consumption. The GS NXT is 29% more energy efficient than our previous pinsetters, with a refined pin flow and loading process that allows for faster cycle time and less wear on pins. Because the GS NXT runs on three-phase [commercial grade] power it can accommodate higher quality, more efficient motors and only requires one source to power two pinsetters. Smart technology runs the ball accelerator motor and pinsetter only when needed, extending the life expectancy of the motors and reducing power usage and costs.

RELIABLE PERFORMANCE

GS NXT is the undisputed frames-per-stop champion and most reliable pinsetter ever. Your guests can rely on the GS NXT for accurate scoring since, unlike other pinsetters that use cameras for scoring information, GS NXT's mechanical scoring ensures that bowlers' scores are always accurate. The GS scoring technology is so dependable it earned Brunswick the designation of Exclusive Pinsetter Provider for the USBC Open Championship.

Weekly performance of GS-Series pinsetters at a recent USBC® event averaged more than 8,500 FPS, with the remarkable average of more than 10,000 FPS on 280,000 frames of play during one week (about 40,000 frames per day of play).

- At the 2009 World Tenpin Bowling Association Women's Championships, the GS-X achieved an unprecedented 31,000 FPS throughout the entire event.
- One of the world's busiest centers reports that its GS-X pinsetters are still going strong after 2 million frames played—that's 30 years of use for the average center.

GS NXT PINSETTERS ARE THE
EXCLUSIVE PINSETTERS OF
THE USBC!

"My new pinsetter employees have an easier and shorter training period. I'll sum it up for you: my staff and I would never want to work on any other pinsetter."

RAY BAUDOIN AND LELAND ADCOCK, PROPRIETOR AND MECHANIC, SMYRNA BOWLING CENTER, SMYRNA, TN

GS NXT™ FEATURES

1. 360 Controller

BOOST ST[®] PINSETTER

NOT ALL PINSETTERS ARE CREATED EQUAL

Boost ST isn't equal to other string pinsetters—it's far better. Boost stands alone with future-proof technology that delivers the flexibility and agility to adapt to whatever tomorrow brings, combined with durability for the long haul. As the industry's proven USBC-certified dual purpose string pinsetter, Boost accommodates both the demands of league and tournament play and the high-volume activity of open play. Different by design, Boost incorporates advanced sport technologies to improve performance, safety, efficiency, and the bowler experience.

FUTURE-PROOF, UNSTOPPABLE PERFORMANCE

Boost ST is the only USBC-certified, cloud-enabled, dual purpose string pinsetter engineered to deliver the professional-grade construction of the iconic GS-NXT platform and the future-proof technology of the 360 Controller. Leveraging the Brunswick Cloud, the 360 Controller's powerful yet flexible software allows proprietors to enjoy endless updates in functionality and features without the need to replace hardware. The Controller seamlessly updates performance features (such as detangling), user interface improvements, and other functionality. [See page 75.]

BUILT AROUND THE BOWLER EXPERIENCE

Realistic pin action, longer string length, and consistent scoring lead to a more authentic bowling experience, enhancing guest satisfaction. The 360 Controller's adaptive detangling feature automatically resolves 99.99% of frames bowled without staff intervention, resulting in a better guest experience and happier staff members. Boost's on-demand pin setting feature lets bowlers enjoy games and league training features that require unique pin arrangements. Available in Sync only.

COMMERCIAL GRADE EQUIPMENT

Boost ST was designed by the same expert engineers who developed Brunswick's iconic GS freefall pinsetter line. Modeled after the GS NXT, Boost is designed with rock-solid reliability you won't find in any other string pinsetter. Durable 100% phenolic-covered kickbacks, steel frames, and locking ball door minimize your business risk and maximize performance. Boost is designed to be durable and perform reliably for years to come.

REDUCE LABOR AND OPERATING COSTS

Boost ST doesn't require mechanical expertise—in fact, Boost's intuitive touchscreen makes it simple enough for any staff member anywhere, from the front desk to the kitchen, to operate. Boost's self-detangling mode allows for less downtime, and its modular design means components can be quickly replaced in the field by center staff. Boost uses smart, energy-efficient technology that only runs motors when needed, reducing energy consumption by more than 70% compared to traditional freefall pinsetters—thereby costing less to run.

Boost features 80% fewer components than traditional freefall pinsetters, with no components that require regular maintenance (other than strings and pins). The Pronto Center Operations App simplifies and streamlines maintenance by staff members of all skill levels, with easy-to-understand error codes and troubleshooting guides.

DESIGNED WITH SAFETY IN MIND

Boost ST is as close to maintenance-free as it gets. It's the only pinsetter on the market with a fully guarded machine, with all adjustments made from the rear of the machine. When detangling or replacing pins, the movable curtain provides improved access for optimal safety. Boost is UL- and CE-certified.

INDUSTRY CERTIFICATIONS

Boost ST is USBC-certified for competitive play.

BOOST ST[®] FEATURES

Boost ST was designed by the same expert engineers who developed Brunswick's iconic GS freefall pinsetter line. Modeled after the GS NXT, Boost ST is designed with rock-solid reliability you won't find in any other string pinsetter.

1. 360 Controller
 - Capacitive 7" LCD touchscreen with easy-to-use instructions.
 - On-demand pin selection.
 - Fully customize machine preferences by center staff
2. Adaptive self-detangling feature automatically resolves 99.99% of frames bowled, reducing downtime.
3. Locking ball door prevents pins in ball door.
4. Movable curtain provides easier access and sits higher, preventing pins from getting stuck.
5. Modular design for quick component replacement by staff.

BOOST ST[®] FEATURES

- 6. Durable 100% phenolic-covered kickbacks (same as GS-NXT).
- 7. Steel frames for long-term durability.
- 8. Longer string length for better bowler experience.
- 9. Energy efficient motors.
- 10. Dual purpose design accommodates both league/tournament and open play

DUCKPIN
SOCIAL

DUCKPIN SOCIAL

**THE BOLD NEW ATTRACTION THAT'S BURSTING WITH
PERSONALITY AND PROVEN REVENUE-GENERATING
POSSIBILITIES**

Duckpin Social is Brunswick's attention-getting twist on duckpin bowling, a 10-pin game popular in the Northeastern U.S. and Canada for more than a century. Designed for restaurants, bars, entertainment centers, resorts, community living—anywhere and everywhere people gather for fun—Duckpin Social delivers all the advantages of bowling in far less space.

Like bowling, Duckpin Social appeals to young and old, drives food and beverage sales, keeps guests on the property longer, encourages repeat visits, and builds guest loyalty. For owners, Duckpin Social's small footprint maximizes revenue per square foot. Minimal lane and pinsetter maintenance requirements result in cost savings for the center. For guests, Duckpin Social delivers all the fun of bowling while keeping it simple. Players don't need to hunt for a particular ball [one size fits all] or rent shoes [wear your own!].

Duckpin Social provides a unique experience to share with family and friends, and is versatile enough to be challenging for adults and fun for kids.

ON-DEMAND PINSETTING

PRONTO OPERATIONS MOBILE APP

DUCKPIN SOCIAL FEATURES

SMALLER FOOTPRINT

Duckpin Social requires a mere one-third the space required for standard bowling. Duckpin Social's lanes can be installed in as few as 31 feet (compared to standard bowling lanes, which require a minimum of 87 feet).

NO RENTAL SHOES, ONE SMALLER BALL

All players use the same smaller ball without finger holes. And no rental shoes are required—players can wear their street shoes (even heels!) while playing.

SYNC® SCORING

Brunswick's Sync scoring and management system provides the ultimate in user-friendly operation and terrific games for your guests, along with industry-leading marketing and administrative support for you. See page 2.

STRINGPIN™ PINSETTER

Brunswick's StringPin pinsetter is lightweight, compact, and durable, making it ideal for even the busiest venues. StringPin offers reduced maintenance and energy costs and requires fewer parts and adjustments compared to traditional pinsetters. The system auto-detects any tangles and automatically rights the pins.

MASKING UNITS

Brunswick's wire mesh and plexi masking units offer a view of pinsetter action, and feature illuminated lane numbers, green and red "bowl/don't bowl" lights, pin deck lighting, and optional accent lighting, all contributing to Duckpin Social's fun, modern vibe. See page 105.

SYNTHETIC LANES

Duckpin Social can be installed in as few as 31 feet. Brunswick's synthetic Prolane comes in a rich wood finish. The Colorfull line includes a wide variety of wood grain options and almost any color in the spectrum. See page 94.

SPACE REQUIREMENTS

*Standard configuration shown; contact your sales representative for additional configuration options.

LANES & ACCESSORIES

Exclusive I-joist-supported foundation and LSL underlayment

SYNTHETIC LANE SYSTEMS

IMPROVE SCORES, ELIMINATE DOWNTIME FOR REPAIRS, AND MAKE YOUR CENTER GLEAM WITH THE BEST-SELLING BOWLING LANES EVER MADE.

Brunswick synthetic lane systems are designed from the concrete up, resulting in strong installations, fewer maintenance issues, and lower cost of ownership. There is no mistaking the distinctive surface of Brunswick synthetic lane systems, and no way to overlook the exclusive advantages for bowlers and center owners alike. Low-maintenance surfaces are easy to condition and clean, with no resurfacing program required.

Whether you choose Pro Lane™—the best-selling lanes of all time—or Anvilane™, the solid value choice, you won't be disappointed.

STRUCTURAL INTEGRITY

- Exclusive I-joist-supported foundation provides outstanding dimensional stability, minimizing floor movement and resulting in less stress on the lane surface and fewer surface blemishes.
- Bridged foul lines eliminate foul-line seams to provide greater strength.
- Wider, 5-foot seamless textured approach eliminates slide-area seam to enhance structural integrity.
- Built using Laminated Strand Lumber (LSL) underlayment board, which provides 2.5 times greater strength than fiberboard/MDF, resulting in greater uniformity/consistency than wood and greater moisture resistance.
- Solid, phenolic construction virtually eliminates risk of delamination.

VISUAL APPEAL

- Natural maple image provides a bright, light, attractive appearance.
- Edge-to-edge lane and approach glow for Cosmic Bowling® experience.
- Can be customized with lane graphics or your center logo to market your center in an innovative way.

SCORING PERFORMANCE

- USBC-approved surface markings work as great teaching tools and visual guides for bowlers.
- Wide lane approach improves bowlers' footing and confidence.
- Textured approaches provide consistent sliding in a variety of conditions.
- Anti-skid pin decks reduce standing-pin sliding and out-of-range pins.

VERSATILE

- Low-maintenance surface that's easy to condition and clean, with no resurfacing program required.
- Reduced-length standard lanes are ideal for any facility where space is at a premium and are compatible with either standard or duckpin bowling.

PRO LANE

- Patented, alternating light/dark board design, every fifth board outlined
- Includes patented down-lane markings to help bowlers develop precise break points and improve scores.
- Features extra-thick, 7/16" (1.11 cm) panels.
- Covered by a lifetime warranty against delamination.
- USBC approved.

ANVILANE

- Every board outlined to provide visual guidance for bowlers.
- Features 3/8" (0.95 cm) thick panels. Also available in non-glow.
- Covered by a five-year limited warranty against delamination.
- USBC approved.

PINBALL WIZARD AUTOMATIC BUMPER RAILS

- Adds to the fun by preventing gutter balls.
- Motorized rails automatically raise or lower for each bowler following player setup/input at beginning of game.
- Enables adults to play on same lane as youngsters with rails automatically raised or lowered according to the bowler up.
- Control from the front desk or by bowlers using simple commands on the input keypad or LED display.
- Stronger, longer-lasting rails with our patented curved front rails improve the system's durability by reducing the force of the ball.
- Rails are supported by 30 heavy-duty uprights per side (60 per lane) to provide maximum durability.
- Can be installed with any lane system.
- Engineered for durability with heavy-duty metal gears within the motor assembly as well as metal uprights, actuator arm, and rail.

DIVISION & CAPPING

These quality division inserts are available in glow or non-glow graphite or glow black inserts. Divisions are also easily upgradeable to Nitro, Brunswick's all new LED Division Lighting. Cappings are made of high-strength PVC and provide easy access to ball return tracks without tools. Available in glow or non-glow light gray, or non-glow black.

Pinball Wizard Automatic Bumper Rails

LANESCAPE LANES — ULTIMATE

THE ULTIMATE THEMED ENVIRONMENT THAT WILL CREATE AN UNFORGETTABLE BOWLING EXPERIENCE FOR YOUR CASUAL BOWLERS

ULTIMATE LANES

Centers that want a distinctive, themed environment for casual bowlers and families can create a custom, colorful design that's visible by day and also produces an ultra-cool glow effect under black light.

FEATURES AND ADVANTAGES

- Offers the same durable performance, beautiful appearance, and easy maintenance as Brunswick's premium synthetic lanes.
- Ability to create a unique and extraordinary themed environment.
- Differentiate your center from the competitors.
- Give customers a more memorable, branded experience.
- Exclusive process to apply photographic images, logos, and any design imaginable in both glow and non-glow.
- Endless design possibilities with long-lasting imagery.
- U.S. Pat. Nos. 8,636,602 and 8,435,128.

LANESCAPE LANES — COLORFULL

CREATE A UNIQUE EXPERIENCE IN YOUR CENTER AND LET YOUR LANES MAKE A BOLD STATEMENT WITH COLORFULL LANES.

COLORFULL™ LANES

For a more sophisticated feel, you can also create lanes in a wide variety of wood grain options or turn up the fun by creating bright, colorful lanes using almost any color in the spectrum.

FEATURES AND ADVANTAGES

- The same durable performance, beautiful appearance, and easy maintenance as Brunswick's premium synthetic lanes.
- Ability to create a unique and extraordinary themed environment.
- Differentiate your center from the competitors.
- Give customers a more memorable, branded experience.
- Can be coordinated with Lanescape® masking units and furniture.
- The most complete line in the industry, offering 10 standard color options and an additional 50+ designer offerings.

LANESCAPE MASKING UNITS

CAPTURE BOWLER ATTENTION AND HEIGHTEN THE EXPERIENCE WITH VIBRANT MASKING UNITS.

LANESCAPE® PRINTED MASKING UNITS

Masking units make a big visual impact in any bowling center. Distinguish your center with Brunswick's extensive collection of masking units (or customize your own!).

- Units span every two lanes, covering adjacent pinsetters.
- Long-lasting, accurate color that will stay that way for years.
- Superior glow effect provides for a more intense Cosmic Bowling® experience.
- Improved print quality with higher resolution ensures that the printed image is representative of actual artwork.
- Slide-up design—lower panels slide up easily for access to pinsetters at any time.
- Easy lane identification—glow lane numerals, plus first and second ball lights.
- Scenes can repeat every two, four, six, or eight lanes, or run continuously across all lanes.
- Two-sided/easily reversible—doubles your image flexibility with panels that easily flip over.
- Choose from a wide selection of Brunswick designs or customize your own!

CUSTOM MASKING UNITS

Custom masking units are a great way to express your center's individual theme. Photos, graphics, and copy can be combined to create exclusive scenes that either repeat across your lanes or run the entire length of the lanes. High-definition resolution printing is perfect for incorporating photographic imagery into custom designs.

NON-TRADITIONAL MASKING UNITS

Center Stage clear masking units offer a view of the pinsetter action while dampening pinsetter noise. Our metal grid masking units complement any modern, industrial, metropolitan environment. Either option features 1st ball and 2nd ball lights and can be paired with Pin Deck Lighting.

Fuzion

Palm Leaves

Dark Wave

Neon Strike

Gold Crown

LANESCAPE VIDEO MASKING UNITS

KEEP YOUR CENTER PULSATING WITH THESE CAN'T-MISS PANORAMIC VIDEO SCREENS PROJECTING YOUR CHOICE OF EVER-CHANGING AND ALWAYS-COMPELLING ENTERTAINMENT.

LANESCAPE® VIDEO MASKING UNITS

- Jumbo video screens span every two lanes, covering adjacent pinsetters.
- Project your choice of entertainment: Digital Signage, satellite TV, and sporting events.
- Motorized screens raise and lower with the touch of a button from the front desk to maintain easy access to pinsetters.
- Can be installed over existing masking units.
- Staggered, overlapping screen configuration is virtually imperceptible from bowlers' vantage point, yet works to eliminate the visual gap between screens, maximizing the screen area and enabling projection of large, uninterrupted scenes.
- Easy-to-use front desk controls enable programming selection screen by screen or for the whole center.
- Commercial-grade projectors support widescreen resolutions along with the increasing demand for HD signals.

ADD FUN AND FLAIR TO YOUR LANES WITH DYNAMIC LIGHTING SYSTEMS.

Installs over existing masking units for maximum flexibility

NITRO[®] CENTER LIGHTING SYSTEM

NITRO[®] DIVISION LIGHTING

Brunswick's all new Nitro LED Division Lighting features 759 individually programmable, multi-colored LED lights per division, displaying 16.7 million colors to create an immersive, center-wide light show experience. Fully loaded with explosive preset dynamic effects and shows, the user-friendly Nitro Show Manager lets you create your own custom program to set the mood, let bowlers celebrate strikes, spares, and other events, or celebrate holidays. Millions of possible combinations of light pattern, color, speed, and sequences are possible! Control lighting from the Brunswick Cloud using any device, including tablets and smartphones.

- Transform your center environment to inspire and wow customers, or quickly convert part of your center into a dazzling VIP experience
- The intuitive user interface lets you create your own shows from scratch or adapt presets.
- Save on energy by making the switch from fluorescent lights (LED lights can be 75% more efficient!).
- Lights are individually programmable and customizable.
- Available for Sync and non-Sync scoring.
- Inserts into existing Lightworx Divisions—just add a frosted lens.

NITRO[®] PIN DECK LIGHTING

Nitro is high-octane entertainment—it's not just pin deck lighting, it's an experience! Select from dazzling preset shows or create your own using the provided explosive effects, including dynamic effects for Sync events like strikes and spares. Millions of possible combinations of light pattern, color, speed and sequences are limited only by your imagination!

- Nitro Show Manager lets you easily change the look and feel of your center on the fly or schedule one of our many preset shows for holidays or special events.
- Create a center-wide light show or quickly convert part of your center into a dazzling VIP experience.
- Controlled through the Brunswick Cloud, accessible from any internet-enabled device including tablets and smartphones, and compatible with Sync and non-Sync scoring.
- Each fixture includes two independently controlled LED boards.
- Deck Light fixture contains two independently controllable LED boards.
- Can be mounted on Brunswick GS-series, StringPin, Boost ST, Brunswick A Series, and QAMF Pin Spotters controllable, modular LED boards.
- Accessible from any internet-enabled device including tablets and smartphones.
- E1.31 DMX controllable for 3rd party lighting designers.

NITRO PIN DECK LIGHTING

CENTER MAINTENANCE & SUPPORT

BRUNSWICK'S STRONG COMMITMENT TO RESEARCH AND DEVELOPMENT EXTENDS TO ALL ASPECTS OF THE BUSINESS, INCLUDING LANE MAINTENANCE, CENTER OPERATIONS PRODUCTS, TRAINING, AND SERVICE AFTER THE SALE. FROM THROBOT™, OUR STATE-OF-THE-ART BALL-THROWING ROBOT, TO OUR DEDICATED SUPPLIES DEVELOPMENT TEAM, BRUNSWICK CONTINUALLY INVESTS IN ADVANCED SCIENTIFIC RESEARCH TO MEASURE AND ENHANCE PERFORMANCE BOWLING PRODUCTS.

BACKED BY THE 24/7/364 SUPPORT OF BRUNSWICK'S TECHNICAL SERVICES TEAM, AFTERMARKET PRODUCT SPECIALISTS IN NORTH AMERICA, AND DEDICATED DISTRIBUTORS SERVICING CENTERS IN OVER 60 COUNTRIES ACROSS THE WORLD, YOU WILL ALWAYS GET THE VERY BEST PERFORMANCE AND THE VERY BEST VALUE WHEN YOU CHOOSE BRUNSWICK PRODUCTS.

Brunswick

MAX Direct+

USER INTERFACE

PHOENIX® LT4

LANE MACHINES

MAX LANE MACHINE

MAX is the world's first cloud-enabled lane machine and the undisputed leader in lane machine technology, featuring Brunswick's patented Direct+ Conditioning system. MAX's unrivaled technology enables frequent software updates, access to the world's most comprehensive pattern library, and communication with Brunswick support staff—all delivered wirelessly through Brunswick Cloud. Wi-Fi enabled technology allows new tools and features to be pushed to Brunswick's large network of MAX machines around the world in real time. For existing or new SYNC scoring customers, Brunswick Cloud unifies all your equipment into a single ecosystem of tools to make running your center as simple as possible.

DIRECT+ CONDITIONING

MAX features our patented Direct+ Conditioning system, which applies the oil with 39 individual injectors—one for each board. This board-by-board approach ensures precise delivery onto the lane, exactly where you want it, regardless of topography. The result is superior pattern consistency with no zigzags or multicomponent transfer systems to blur the results.

With Direct+ Conditioning, you know the right amount of oil is on the lane. Oil application is computer controlled by varying the injector pulse rate, not the speed of the machine.

The on-board heater warms the conditioner to 80°F, ensuring consistent application, while the buffer brush tapers for smoother transitions.

The PBA® counts on Direct+ Conditioning to provide consistent patterns for the very stringent requirements of the PBA Tour. The Direct+ Conditioning system has been used for every PBA Tour event since 2006.

FLEX POWER

MAX can be quickly switched between lithium battery or AC/DC power. It is equipped with an on-board power supply, plugging in the power cord for a seamless transition between these options. The lithium battery uses a smart charger to optimize battery life and performance. Charging cycle and battery use are monitored and logged through the user Interface. A buzzer will alert you if the machine is not charging after use. If the unexpected happens and the battery is not charged, your machine can be ready to go with the backup power cord.

USER INTERFACE

MAX features a 10.4" Android-based touchscreen tablet that is easy and intuitive to use. This is the same functional and durable tablet used in Brunswick's SYNC™ scoring and management system. The tablet features a large screen with easy-to-navigate main menus across the top and sub menus on the left.

The tablet is also Wi-Fi enabled, allowing for direct internet communication between Brunswick and the lane machine. This will enhance and quicken any needed support and technical assistance. Pattern download times are also greatly improved.

Predictive analytics are included in the software, allowing the user to quickly check specific parameters to ensure the machine is functioning at maximum performance and efficiency.

CONTAMINATION SENSOR [PATENT PENDING]

MAX features a patent-pending sensor system that alerts the user when cleaner has entered the conditioner tank. Once cleaner is introduced into the machine's system, a complete system purge is required. This sensor prevents the cleaner from leaving the conditioner tank by automatically shutting down the machine and providing an error message. The conditioner tank can then be cleaned without adversely affecting other components in the conditioning system.

PHOENIX® LT4

The Phoenix LT4 is an efficient and affordable solution for your small center's lane maintenance needs. Reliable and easy to operate, this combination machine cleans, oils, and buffs in a single pass. An easy-to-read touchscreen control module allows easy access to the four pre-programmed cleaning and oiling programs.

ENVOY+ UPGRADE KIT

[FULL KIT]

LANE MACHINES

ENVOY+ UPGRADE KIT

ENVOY+ is the first step to overhaul Envoy lane machines, purposefully designed to improve reliability, ease of use, and aesthetics of Envoy.

The ENVOY+ Upgrade Kit consists of: two 10.4" Android based touchscreen tablets, a new set of black covers, and the necessary adapter cabling, shims, and hardware for installation. This kit gives you the look and feel of our best-selling MAX lane machine, but in a package that is compatible and specifically designed for current Envoy owners, and at a fraction of the cost of MAX.

We designed and built your Envoy to last, so your center may not be ready to upgrade to a MAX lane machine. But we live in a world of touchscreen devices; you should expect nothing less installed in your lane machine.

ENVOY+ BRUNSWICK CLOUD UPGRADE KIT

ENVOY+ Brunswick Cloud is the second upgrade kit for Envoy lane machines, reaching the pinnacle of performance. Utilizing all remaining hardware from our premier machine, MAX, this kit installs our unrivaled technology stack that enables frequent software updates, access to an extensive pattern library, and communication with Brunswick support staff – all wirelessly through Brunswick Cloud. These Wi-Fi enabled features allow new tools and features to be pushed to our large network of Brunswick Cloud enabled machines around the world in real time.

“My shot has never been more consistent lane to lane.”

BILL WAMMES, ALMAR LANES, BOWLING GREEN, OHIO

UPGRADE YOUR WAY

UPGRADE KITS FOR ENVOY LANE MACHINES

UPGRADE NOW

Hook Zone Concentrated Lane Cleaner has paved the way for a new class of cleaners from Brunswick. Utilizing a highly effective 100% liquid formula, this fast-acting solvent-driven cleaner leaches the lane surface and leaves a squeaky-clean lane. It can be paired with any lane conditioner on the market today.

Connect 2.0 uses a special blend of oils with an enhanced additive package to create a low-lubricity conditioner that gives predictable and strong ball reaction. It has been optimized for low-friction, synthetic lane surfaces. It can be used with Brunswick Direct+ Conditioning system and Sanction technology machines.

Logic 2.0 blends blends top-grade oils with an enhanced additive package. Logic is a low-lubricity conditioner with excellent durability that is optimized for low-friction surfaces.

LANE CLOTH

LANE MAINTENANCE SUPPLIES

CUTTING-EDGE SCIENCE AND TECHNOLOGY ENSURE HIGH SCORES AND SIMPLE MAINTENANCE WITH OUR COMPLETE LINE OF CONDITIONERS, CLEANERS, AND CLOTHS.

LANE CONDITIONERS

We understand the importance of having a conditioner that meets your center's unique lane conditions. Whether you have a 60-lane synthetic house focused on league play or a six-lane wood lane center for recreational play, we have the right conditioner for you.

All Brunswick conditioners are formulated to provide key performance characteristics including stability, durability, minimal transition, and consistency.

LANE CLEANERS

Today there are only three effective ways to remove conditioner from the lane: surfactant driven cleaners, pH driven cleaners, and solvent driven cleaners. Brunswick is the only manufacturer offering all three forms of cleaners.

LANE CLOTH AND DUSTING SUPPLIES

Brunswick offers a full line of premium-quality, heavy-duty cloth that will fit any lane machine and will ensure durability and long life. Choose from 8460QC, 8460XL, Envoy®/A22, and Red Edge®.

APPROACH SUPPLIES

Keeping the approach clean is essential to creating an optimum and equitable scoring environment for your bowlers. Brunswick is a leader in developing approach supplies that provide better slide characteristics. From approach cleaners and powders to mops, we have the products your center needs to keep approaches in top bowling condition.

MAINTENANCE SUPPLIES

Beyond pinsetters and lanes, bowling centers have many maintenance needs. Brunswick offers a full line of cleaning and maintenance products to keep your center running smoothly. From spot cleaner to pin deck treatments, Brunswick has all the supplies you need.

SUPPORT INFO

Brunswick has aftermarket product specialists (AMPs) available to help with any bowling center maintenance questions you have. With each product specialist having more than 20 years of bowling experience, they know what it takes for a center to run smoothly and efficiently.

Around the world, dedicated Brunswick distributors provide products, services, and support to bowling centers in more than 60 countries. Go to www.brunswickbowling.com to find a distributor servicing your center.

GOLD CROWN HOUSE BALLS

A classic but with a modern twist. Today many retro products make lasting impressions and take us back to a different time. Brunswick could not be left behind, and requests for a simple black house ball continued to stream in. So, to fill the requests, Brunswick went back in history and rekindled the famous Gold Crown name.

MYBALL™ HOUSE BALLS

Liven up your center with Brunswick house balls. These bright, glow-in-the-dark bowling balls add color and excitement to any bowling environment. They are a great value and carry a two-year warranty [one year for 6-pound balls]. Both MyBall and Billiards styles are available from 6 to 15 pounds.

BALL CARTS AND BALL RAMP

These durable and attractive ball carts enable you to easily transport house balls across the center as needed. The ball ramp enhances the bowling experience for younger bowlers, or those with special needs, making bowling more fun and bringing them back again and again.

Ramps and racks are available in five colors: black, silver, green, yellow, or blue.

SERVICE & SUPPORT

INSTALLATION SERVICES

Brunswick products are installed by skilled installers who are held to stringent guidelines and are subject to random quality audits to ensure that each installation meets the industry-leading standards of Brunswick. To maintain product installation expertise, Brunswick conducts continuous installation training for all installers.

PRODUCT TRAINING SERVICES

Brunswick offers the industry's best product training courses to ensure that your bowling center staff can proficiently operate, maintain, and troubleshoot Brunswick equipment. Training is available in local languages throughout our worldwide network of distributors.

ON-SITE TRAINING

Training with your staff is performed at your center for maximum impact, convenience, and effectiveness. System management and operational training are included with purchase. GS-Series pinsetters and Boost ST string pinsetter maintenance training is also available.

OFF-SITE TRAINING

Training for the GS Series pinsetters is offered at the Brunswick Training Center in Muskegon, Michigan. Training focuses on combining theory with hands-on learning opportunities, giving your mechanic the very best learning experience, safeguarding your investment and maximizing your satisfaction with Brunswick equipment.

WEB-BASED TRAINING

Web-based training is also available for Sync, Vector, Brunswick Cloud, Brunswick and CDE League Software, CDE Tournament, Rental Control Software, Payment Card and Game Card, Remote Order Printing, and Digital Signage.

To learn more about the various training opportunities offered by Brunswick and to view our training calendar, go to www.brunswickbowling.com/service-support/training/product-training-calendar/.

TECHNICAL SUPPORT

Brunswick provides the industry's most knowledgeable and responsive Technical Support team. Product experts answer calls 24/7 every day of the year, and high-priority calls receive immediate attention.

ELECTRONIC REPAIR CENTER

Your source for electronic repairs and exchanges since 1968, the Brunswick Electronic Repair Center offers competitive pricing on hundreds of electronic repair products. Repairs are performed by OEM technicians with access to thousands of original drawings to ensure precision repairs. Brunswick supports current and legacy Brunswick products, including Frameworkx[®] Vector[®] and Sync[®] electronics. We also repair electronic PCBs and Assemblies related to GS NXT[®] Slide Out, GSX 360[®] Slide Out, GS[®] Pinsetters, Intellishield[®], Authority22[®], Envoy[®], Envoy+[®], and the latest MAX[®] line of lane machines. Also Samsung[®] Uppers, LCD and keypad lowers, Electronic Triggering, Telefouls, and Pinball Wizard[®]. We offer three convenient shipping options: pre-ship, exchange, and repair/return. Brunswick Electronic Repair offers a 90-day warranty and technical support at USA 1-800-937-2695 or USA 1-231-725-4966 on all rebuilt PCB's and assemblies.

WARRANTY RESOLUTION

Brunswick's Warranty Resolution team can assist in resolving your product issues and strives to process your claim within one business day. All warranty shipments are prioritized to minimize machine downtime. The quickest and easiest way to file a warranty claim is online at www.brunswickbowling.com/service-support/warranty/file-claim.
