April, 2019

We Appreciate Your Business

From the Brunswick Electronic Repair Center Team

Committed to Service

Brunswick Electronic Repair Center

We sincerely thank you for trusting Brunswick to repair your electronic bowling equipment. Our advantage of having direct access to the designers and manufacturers of our scoring systems is clearly to your benefit. We have access to supplies of obsolete components and assemblies enabling us to repair your items for many years after they were last manufactured. The goal is to quickly respond to your needs with the least cost solution—and Brunswick does just that.

Our Work is Guaranteed

Our goal is to ship you a high-quality, ready to use assembly. We back it up with a 90-day warranty on our rebuilt assembly materials, workmanship, along with technical support (USA1800-937-2695 or USA1-231-725-4966) if your item fails in that 90-day time period. We trust you won't need it.

Troubleshoot FIRST

Making sure it actually is defective

It's important to determine if your assembly is truly defective. Why? Because we must charge you the exchange price - even if it is in working condition.

The standard procedure for troubleshooting an electronic assembly is to place the suspect unit in a known good system. This verifies you have identified the proper assembly as having failed because the symptom will move with the suspect assembly.

Here are two methods that might help:

- 1) Read the Brunswick Service Manual for your system. It normally contains the theory of operation and troubleshooting information you will need.
- 2) If an issue occurs with this part within the warranty period contact Brunswick Technical Support for assistance in determining if the warranty part is the cause of the issue.

FAST Repair

Send it to us – we repair it, and send it back

Standard Procedure

Brunswick Electronic Assembly Repair/Exchange Program

Here's what you need to do:

- 1) Complete the Electronic Assembly Repair Traveler. If you'd like your item (or the exchange item) shipped by priority freight, you may note this on the Traveler. The added freight cost of the priority shipment will be charged to your open account, and is not covered under Brunswick warranty.
- 2) Identify and note any specific software or firmware version unique to your assembly.
- 3) Carefully package your assembly so it cannot be damaged in shipment. Take special care with fragile, computer hard drive assemblies. All assemblies must be covered by a static-protective bag or material prior to placing in a shipping box.
- 4) Label the package with one of the shipping locations shown on page 1. Print your return address on the outside of the box.
- 5) Insure your shipment for the replacement value of the item(s) and request delivery tracking information. If the item is damaged or lost in delivery, you must make a claim to the carrier.

IMPORTANT: Assemblies must be in repairable condition. There must be no missing or broken parts. There will be an additional charge for severely damaged assemblies – broken flat screen displays, for example.

FASTER Exchange

Send it to us – we send a rebuilt unit right back

Please follow the same protocol outlined in the FAST Repair program outlined above.

FASTEST Pre-Ship

When you need it right away – we send to you first!

Sometimes you need us to send you a rebuilt assembly right away. You do not have time to wait. We have the answer. It's called a "pre-shipment."

Pre-shipments can be requested for most items in our inventory. Our goal is to ship it to you within two working days, if we have it in stock – we'll tell you. Just call, fax, or e-mail us at ERC@brunbowl.com.

With pre-shipments, there is a non-refundable charge of US \$60.00 for administration and stocking costs. This is not covered under manufacturer's warranty.

You must return your defective assemblies within 15 days or you will be charged the "full price" of the item.

When you have returned the items that have failed within the Brunswick Electronic Repair 90-day warranty, we will credit you the pre-shipment charges after the defective item(s) are returned.

Speeding Up Delivery

A great way to speed up the exchange process is to use one of the many overnight express freight/mail services. Brunswick recommends UPS. On your Repair Traveler form, indicate you want overnight return services. We'll do our best to arrange this upon return. Note: express freight service is not covered in the warranty, and will be at an additional charge. **See next page for Shipping Instructions.**

Brunswick 90-day Warranty

Brunswick offers a 90-day warranty on all rebuilt assemblies, regardless of manufacturer's warranty. If an issue occurs with this part within the warranty period contact Brunswick Technical Support for assistance in determining if the warranty part is the cause of the issue. The 90-day repair/exchange warranty begins as soon as we send it back to you, not when you put it into service. So, put it in to use as soon as you get it. In other words, please DO NOT put exchange/repair units directly in your spare parts inventory. Put them in a working system, and put the known to be working assembly in your spare parts inventory.

Shipping Instructions

Here are a few tips for shipping items to Brunswick and receiving them back from being repaired.

- Identify each assembly and its serial number. Log the entire shipment in a book by date for future reference. After shipping your package, log the shipping company's tracking number, in case it gets lost. (e.g. UPS tracking number)
- Package assemblies so they can survive the trip. More padding is better than not having enough. Heavier assemblies require more padding. Reason: If your assembly arrives damaged from shipping, we will return it to you un-repaired. It will be your responsibility to file a claim with your shipping company.
- Include written instructions in the box. The best thing to do is attach a Repair Traveler to EACH defective assembly, noting the failure and anything else you want us to know. (e.g. returning for exchange)
- Mark the outside of the box with the address of the location you are using. Make sure it says "Brunswick Electronic Repair Center" or it may get lost.
- If you are returning a "pre-shipment," indicate on the Repair Traveler that this is a return for pre-shipment. Include a copy of your invoice

Repairable or Not?

Not all electronic assemblies are repairable. The best way to know is to identify your part in the attached catalogue pages. If it's there, we will likely exchange it.

If the item is not in the catalogue, you must purchase a new replacement from a Brunswick service parts distributor (if the part is available).

Another reason an item might not be repairable is that it is too badly damaged. In this case, your assembly will be returned to you without being repaired. You must purchase a new replacement (if available) from a Brunswick distributor.

Manufacturer's Warranty

We take care of electronic warranty repairs

The warranty on your electronic product is in the original order, contract, or with the equipment itself. Most electronic products carry a one year warranty on materials and a 90-day warranty on labor. Your warranty covers defects in materials and workmanship during the 90-day warranty period. It is always good to review this warranty before you need it. Warranty information for scoring systems is also contained in the Service and Support Guide provided at the time of your installation. To be covered, repairable items may only be exchanged for rebuilt items during the warranty period. So it is very important to know which items should be exchanged, and which items must be replaced.

Your warranty does not cover:

- Damage from product abuse, acts of god, and other conditions as described in your warranty policy.
- Repairs, replacements, or modifications made by anyone other than Seller or a Seller-certified installer.
- Abuse, misuse, accident, alteration, tampering, neglect, or lack of reasonable care, water, moisture, atmospheric conditions, storms, lightning, or from other causes over which Seller has no control.
- Buyer's failure to maintain products in accordance with applicable product manuals and service bulletins. Please refer to www.brunswickbowling.com for current publications.
- LCD/LED Overhead Monitors – Broken screens are not repairable by ERC for repair or under Brunswick Warranty.

Note that damage to assemblies from an electrical power surge of any type is not covered under Brunswick warranty. You must claim these repairs or replacements to your business insurers.

If a non-repairable assembly fails while under manufacturer's warranty, you should contact your Brunswick parts distributor. **For questions or warranty claims, contact the Brunswick warranty administrator at USA 1-800-937-2695.** Outside the USA, call USA 1-231-725-4966.

Importance of Failure Information

A key element to the Brunswick Electronic Repair Business is the sharing of resources. When one customer sends us an electronic circuit board to repair, they usually receive someone else's repaired unit as an exchange. Rarely is the same unit returned. This process allows quick turnaround as we carry an inventory of repaired units.

Since we share the pool of exchange units, it is in everyone's best interest to indicate as much information about the failure as possible. We request that you complete the Electronic Assembly Repair Traveler form (back cover) in as much detail as possible. Failure information helps the technician properly test the unit to the extent of the failure reported. Better failure data means our repair technicians have a better chance of detecting them.

Brunswick Technical Support

1-800-937-2695

Call us for Technical Assistance

READING YOUR INVOICE

There are several types of charges that could appear on your Brunswick open account invoice.

Exchange Price - This is the amount charged to exchange the defective board with a rebuilt assembly of the same model. The part numbers have an -8xx extension.

Full Price - If you had an item pre-shipped, and you fail to return the defective assembly within 15 days of receiving that item, you will be charged the full price of the item. These part numbers have a -7xx extension.

Pre-shipment Fee - This is the non-refundable fee.

Freight - the cost of mailing the assembly to your bowling center. If you would like the return item shipped faster, say priority or overnight freight, you may note this on the Repair Traveler. However, the additional freight cost of priority shipment will be charged to your open account, and is not covered under Brunswick warranty. Brunswick does not arrange for freight pickup on Electronic Repair items.

Software/Firmware

Something you can't see, so it's hard to troubleshoot

Most automatic scoring and office systems today operate on computers using software. When something appears wrong with a computer, software is something that can be misleading in the troubleshooting process. For that reason, it is always best to reset or reboot computers (and clear volatile memory) before concluding that any particular assembly is defective.

You may ultimately suspect the software itself. It resides on either EPROM chip(s) or a hard drive. Changing the chip(s) or hard drive will determine your suspicions. (Remember lane number assignments)

The most important thing to remember is to make sure the "version" of your software is compatible with your system, and the entire system is running compatible software. Typically, this means all assemblies have the same version.

Brunswick determines the most compatible version when exchanging your assemblies. It is your responsibility to verify this upon installation and update the software if required through the front desk.

ARRANGING FOR PAYMENT

You must arrange for payment of your repair charges in advance.

Open Account - The easiest method of payment is through an open account with Brunswick. Contact your Credit Manager for details. Note: If your account is overdue, we are not allowed to ship anything to you, even if you send it to us first. Even if your equipment is under manufacturer's warranty, we are not allowed to ship items to you if your balance or open account is overdue.

Cash in Advance - Include a cashier's check for the invoice when sending your assembly to us. If you need to pay by credit card we will call you for that information. We also accept -checks.

Purchase Order - Many companies are required to provide Brunswick a purchase order number. Put this number on your Repair Traveler form.

Failure to arrange for payment in advance of your repair will result in considerable delays.

Other electronic products bulletins:

4. Monitors and office computers (in warranty)

Contact **Brunswick Technical Support** at USA 1-800-937-2695, or USA 1-231-725-4966 for service instructions. If you call a local service dealer, you will be responsible for those charges.

5. Small Plug-in Power Supplies (out of warranty)

Most of these power supplies can be purchased locally, or from a Brunswick service parts distributor. Power and voltage ratings are listed on the unit being replaced. Make sure you get the proper connector and polarity on the "tip."

9. Zot Repair Services may be contacted at 800-525-8116.

10. Ceronix Monitors – Ceronix, Inc. has discontinued the manufacturing of parts that are needed to repair the existing Ceronix CRT chassis units. Brunswick

has a limited supply of spare parts, so it is advisable to contact ERC first with the chassis part information to verify repairability. For Framework Powerworx and Touchworx consoles, Brunswick Electronic Repair recommends upgrading to the 15" flat screen LCD replacement units. The new units are easy to install, industrial grade, and provide a 168-degree viewing angle with a crisper display image. There are no modifications to the pedestal and no specialty tools are required for installation (all hardware is included).

11. GS-Series Pinsetters - We no longer exchange complete electrical boxes. Instead, you must remove defective PCB assemblies and exchange them with the repair center. We have found most of the boxes are damaged beyond use during shipping and handling. This includes Consolidated Low/High Voltage and NexGen Boxes.

Obsolete Assemblies

If an item is not listed in the price pages, we do not offer standard repair and/or exchange services. However, if you call us by telephone at 1-800-YES-BOWL we can tell you if we are able to repair your assembly on a time and materials basis.

Brunswick and the Brunswick Electronic Repair Center reserve the right to modify prices without notice.

We reserve the right to discontinue support of any assembly without written or verbal notice.

57-863048-800	Vector 32" NEC LCD3210 Monitor	\$400	No Preship
57-863574-800	Samsung 40" LED Monitor	\$500	\$1,000
57-863718-800	Samsung 48" LED Monitor	\$550	No Preship
57-863359-801	Samsung 46" LCD Monitor	\$500	No Preship
57-863355-801	Samsung 40" LCD Monitor	\$500	No Preship
57-863582-800	Samsung 32" LED Momitor	\$500	\$1,000
57-863356-801	Samsung 32" LCD Monitor	\$400	\$900
57-863327-800	Vector 42" Olevia LCD Monitor	\$400	\$1,000
57-863328-800	Vector 37" Olevia LCD Monitor	\$350	\$1,000
57-863329-800	Vector 32" Olevia LCD Monitor	\$300	\$1,000

Vector, Vector Plus, and Frameworkx Center Management Systems Assy. - Front Desk and Back Office

57-300183-800	FW Cms Handset PCB	\$90	\$150
57-300184-800	FW Cms Intercom/Handset	\$155	\$275
57-300361-800	FW Cash Drawer Adaptor PCB Assy	\$125	\$350
57-301174-810	Vector A/V Box Assy	\$209	\$500
57-300490-810	FW Cms A/V Box Assy.	\$209	\$750
57-300490-811	FW Cms A/V Box Transformer Assy	\$75	\$125
57-300487-810	FW Cms A/V Audio PCB	\$90	\$300
57-300080-800	FW Cms A/V Composite/RGB PCB (Analog)	\$75	\$250
57-300956-800	FW Cms A/V Composite/RGB PCB (Digital)	\$100	\$500
57-300400-800	FW Cms Beep Speaker Assembly	\$80	\$200
57-861017-800	Okidata 320 Turbo Printer	\$250	No Preship
57-861017-810	Okidata 320 Turbo Printer w/USB	\$250	No Preship
57-861410-800	Cm Receipt Printer (220V) (White or Black)	\$335	\$968
57-863408-800	Cm Receipt Printer (110V) (White or Black)	\$335	\$968
57-863527-800	CTS-2000 USB Receipt Printer	\$315	\$500
57-861968-800	Epson TM-U230 Receipt Printer (old model)	\$315	\$968
57-862059-800	Epson TM-U220B Receipt Printer (new model)	\$315	\$968
57-861662-800	Elo 17" LCD Flatscreen Monitor	\$530	\$1,500
57-863195-800	Elo 19" LCD Flatscreen Monitor	\$530	\$1,500
57-863195-850	Elo Power Supply	\$75	\$150
57-861591-800	3Com 905B-Tpo Ethernet Lan Card	\$135	\$227
57-861657-800	Siig 2-Db9 Serial Port PCB	\$70	\$128
57-863183-800	Vector 8-Port Ethernet Switch	\$200	\$500
57-862037-800	VX810 Pinpad	\$200	\$700
57-862062-800	VX805 CREDIT ONLY PINPAD	\$285	\$500
57-862062-802	VX805 CREDIT ONLY PINPAD with Mercury Encryption	\$285	\$500
57-863626-800	1080i Digital Modulator	\$1,000	\$2,000
57-863628-800	480i Analog Modulator	\$250	\$450
57-863629-800	RF Amplifier	\$75	\$200

Frameworkx Scorer Assemblies

57-300044-810	FW I/O PCB (1995-2001)	\$135	\$400
57-300671-800	FW I/O PCB (2001+ w/lane ID Switch)	\$159	\$400
57-300106-810	FW Console Video PCB	\$135	\$400
57-861167-810	FW Remote Video PCB	\$135	\$400
57-301081-800	FW Remote Video PCB 2002+	\$135	\$500
57-300160-800	FW Primary Power Supply Assy	\$135	\$200
57-300278-800	F/X Secondary Power Supply	\$125	\$200
57-300392-810	FW 3Com Lan Card (Scorer)	\$53	\$200
57-300391-800	FW 486 CPU PCB w/16MB Ram	\$335	\$1,200
57-300164-810	FW Console Audio PCB (Standard)	\$105	\$200
57-300164-820	FW Console Audio PCB (Modified)	\$105	\$200
57-300195-810	FW Console Control PCB	\$105	\$200
57-300192-810	FW Console Option PCB (Except LCD Flatscreen)	\$86	\$200
57-300249-800	FW Console Option PCB LCD Flatscreen)	\$86	\$200
57-300377-800	FW Microtouch Controller	\$200	\$500
57-300815-800	FW Touchworx Power Supply PCB (In Brick)	\$74	\$125
57-300856-800	FW Touch Control Unit (Brick)	\$325	\$900
57-300368-800	FW Sound Card PCB	\$125	\$250
57-300478-810	FW CMOS Maintenance PCB	\$75	\$100
57-300178-810	FW Pinsetter I/O PCB Only	\$118	\$250
57-300199-810	FW HDLC Converter PCB (Pinsetter Interface Add-On)	\$100	\$200
57-300554-810	FW HDLC Pinsetter Interface PCB	\$80	\$500
57-300565-810	FW Pinsetter Interface Box (GS Single Board)	\$100	No Preship
57-860950-810	FW Pinsetter Interface Box Assy. (A-2)	\$175	No Preship
57-860951-810	FW Pinsetter Interface Box Assy. (GS)	\$175	No Preship

GS-10/GS-92/GS-96/GS-98 Silver Box, Smart Shark and Consolidated Electronics Assemblies

47-142806-800	GS-92 Gamesetter CPU PCB	\$250	No Preship
47-142815-800	GS-92 Gamesetter I/O PCB	\$250	No Preship
47-142839-800	GS-92 Gamesetter Assy	\$400	No Preship
47-142807-810	GS-92 Smart Shark CPU PCB	\$250	No Preship
47-142825-800	GS-92 Smart Shark Gamesetter I/O PCB	\$250	No Preship
47-862711-800	GS-92 Smart Shark Gamesetter	\$400	No Preship
47-172903-800	GS-92 Universal Common Box PCB	\$195	No Preship
47-162809-800	GS-92 High Voltage PCB	\$230	No Preship
47-162839-800	GS-92 Smart Shark High Voltage PCB	\$110	No Preship
47-142530-800	GS-98 Consolidated I/O PCB	\$270	No Preship
47-142533-810	GS-98 Consolidated CPU PCB - Indirect (Software Version 2.4)	\$340	No Preship
47-142533-820	GS-98 Consolidated CPU PCB - Direct (Software Version 3.0)	\$340	No Preship
47-142781-800	GS-98 Consolidated Rear Display PCB	\$125	\$200

String Pin, 5 Pin String, & Duckpin Assemblies

55-860064-800	StringPin, Controller,Slide Out	\$685	\$1,200
57-215213-810	Model "M" 5 Pin PCB Assy	\$175	No Preship
57-215235-810	Model "S" Duckpin PCB Assy	\$175	No Preship
57-215299-810	Model "P" 5 Pin PCB Assy	\$175	No Preship
57-215299-811	Model "P" 5 Pin PCB Assy (Modified)	\$175	No Preship
57-215587-810	Model "CA-1" 5 Pin PCB Assy	\$225	No Preship
57-500902-800	String Pinsetter Interface PCB 24-48V	\$150	\$300
57-500911-800	String Pinsetter Interface Assembly 24-48V	\$250	\$500
57-500911-810	String Pinsetter Interface Assembly 5-15V	\$250	\$500
55-200775-800	SES String HV PCB Assy 208V 3 Phase	\$400	\$800
55-200752-800	SES String HV PCB Assy 400V 3 Phase	\$400	\$800
55-200753-800	SES String CPU PCB Assy	\$400	\$800

Telefoul / Ball Detect / Electronic Triggering /Lightworx / Miscellaneous Assemblies

12-752400-810	Universal Electronic Trigger PCB	\$125	No Preship
12-752408-810	Universal Electronic Trigger PCB	\$80	No Preship
12-862585-810	Universal Diagnostic Trigger PCB	\$80	\$200
12-862890-800	Time Delay PCB	\$98	\$200
17-300237-800	ABW Control Center	\$250	\$750
17-300226-800	PBW Automated Bumper Controller PCB	\$125	\$250
84-860803-800	PBW II Automated Bumper Controller ASSY	\$150	\$250
53-600173-800	S.S. Telefoul PCB	\$114	\$250
53-600177-800	Infrared Telefoul Assy - Narrow	\$96	\$400
53-600177-803	Infrared Telefoul Sensor Block	\$53	\$100
53-600179-801	Infrared Telefoul PCB - Narrow	\$193	\$400
57-214199-800	AMF Interface PCB	\$57	\$250
99-087140-800	Ball Detect Assy V2	\$59	\$150
57-861237-800	Dual Output Ball Detect	\$106	\$300
57-500561-800	Billiards Control AC Power PCB	\$300	\$500
61-860160-800	Computer Lane Monitor	\$380	No Preship
84-200292-800	Lightworx Addressable Lane Module	\$55	\$190
84-200330-800	Lightworx Control Center	\$275	\$600

Authority22 Lane Machine Electronic Assemblies

14-100089-800	A22 Motor Controller PCB Assy	\$212	\$600
14-100110-800	A22 Machine Controller PCB Assy (Software V0.33 or V1.01)	\$395	\$1,000
14-100129-800	A22 Injector Driver PCB	\$100	\$600
14-100154-815	A22 Electrical Control Enclosure Assy 115V	\$895	\$2,500
14-100154-830	A22 Electrical Control Enclosure Assy 230V	\$895	\$2,500
14-100157-800	A22 Power Supply-Meanwell SP-500 Series	\$199	\$400
14-100175-800	A22 Keypad for GUI	\$150	\$150
14-100176-800	A22 LCD Module	\$295	\$500
14-100177-800	UPS Assy - GUI (A22/Envoy)	\$150	\$400
14-100178-800	A22 Viper PC104 PCB - V2.3	\$295	\$900
14-100179-800	A22 Inverter PCB	\$150	\$500
14-100180-800	A22 Adapter PCB for Viper	\$150	\$500
14-100181-800	A22 Ethernet PCB	\$150	\$500
14-100285-815	A22 Regenerative Drive - 115V	\$317	\$400
14-100285-830	A22 Regenerative Drive - 230V	\$317	\$400
14-100362-800	A22 Graphical User Interface Assy (New Style: Software V1.03 or V2.0)	\$1,095	\$5,000
14-100466-800	A22 Machine Controller PCB Assy (Software V1.01)	\$395	\$1,500
14-100596-800	A22 Motor Controller PCB Assy 2	\$250	\$1,000
14-100971-800	A22 Machine Controller PCB Assy 2	\$395	\$1,500
14-100972-815	A22 Electrical Control Enclosure Assy 115V 2	\$895	\$2,500
14-100972-830	A22 Electrical Control Enclosure Assy 230V 2	\$895	\$2,500

Envoy Lane Machine Electronic Assemblies

14-100583-800	Envoy Injector PCB Assy	\$100	\$600
14-100610-800	Envoy Motor Controller PCB Assy	\$212	\$600
14-100750-810	Envoy Machine Controller PCB Assy	\$420	\$1,000
14-100775-810	Envoy Electrical Enclosure	\$895	\$2,500
14-100822-800	Envoy Variable Speed Motor Control PCB Assy	\$425	\$425
14-100177-800	UPS Assy - GUI (A22/Envoy)	\$150	\$400
14-100842-810	Envoy Graphical User Interface (GUI)	\$1,095	\$5,000
14-100857-810	Envoy Avantech PCB Assy	\$295	\$900
14-100934-800	Envoy Inverter-LCD	\$150	\$500
14-100984-800ER	Envoy Inverter-LED	\$150	\$500
14-100948-800	Envoy 24V/50A Output Power Supply Assy	\$250	\$800

SERVICE AND SUPPORT - Getting you up and running *fast* with Pre-Ship exchange, assembly exchange & assembly repair
