# Barcode Scanner

Programming Codes for Vector Plus Control Desk/POS Systems Barcode Scanner

Unitech Model No. MS331-1U1

1. Remove the barcode scanner from the box.

2. Connect the included cable to the barcode scanner.

3. Connect the barcode scanner assembly to an available USB port on the desired machine.

4. Scan the following barcodes in the order shown:

...I100003J

C0807C7D7D.

5. The barcode scanner should now be ready for use for scanning membership cards in the Vector Plus POS System.

6. Should it be necessary to remove the cord from the barcode scanner, insert straight pin object, such as a bent out paper clip, into the cord release access hole (refer to the figure below) to depress the release tab on the connector. Gently remove the cord.
