**Subject: GS Pinsetter Setting Table Cable Harness  
Pin Extractor Tool**

**Date: 8/15/05**

**Distribution: GS Pinsetter Customers**

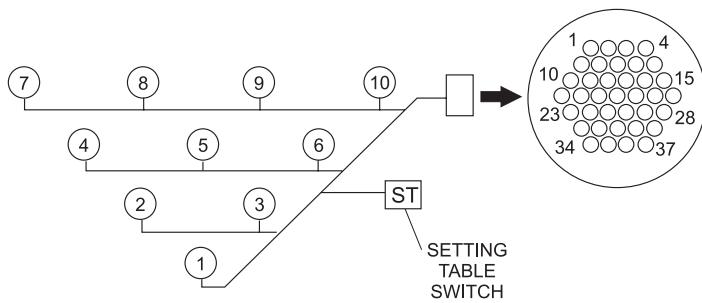

**Bulletin No. SB05-5**

The Pin Extractor Tool, part number 47-862008-000, can be purchased from Brunswick. This tool, shown in *Figure 1*, is used for removal or installation of pins and receptacles.

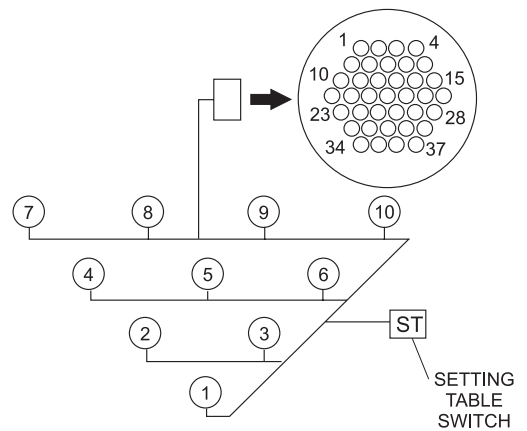

*Figure 1*

The tool is used at the setting table end of the Setting Table Cable that connects the pinsetter electrical box to the setting table. The cable connects to the setting table near the 10 pin area on GS-X pinsetters (*Figure 2*) and between the 8 and 9 pin area on all previous models of GS pinsetters (*Figure 3*).
