Subject: Frameworkx Tel-E-Foul Cover Lens Improvement

Date: 4/12/10

Bulletin No. SB10-4

We are pleased to announce the release of a more robust mounting system for the Frameworkx Tel-E-Foul cover, red lens. The enhanced design secures the lens to the support boss for the foul light cover with a button head screw. Refer to *Figure 1*.

Figure 1

This design change will be implemented in all new production going forward. The cover assembly has a new part number, 84-860769-000. This replaces the old part number, 84-860603-000.

This is also available in a kit from service parts. The Brunswick Tel-E-Foul Lens Replacement Kit, part number 84-860770-000, is currently available and includes all the components to replace the lenses on one cover. Those components are:
