KINGPIN™

Brunswick®

- PART NUMBER** 60-105968
- COLOR** Black / Light Blue / Purple Solid
- CORE** Kingpin Ultra Low RG
- COVERSTOCK** ECA (Enhanced Composite Adhesion)
- FINISH** 500 / 1,500 Siaair Micro Pad
- WEIGHTS** 12-16 lbs.
- HOOK POTENTIAL** 300
- LENGTH** 100
- BREAKPOINT SHAPE** 115

The Kingpin features a new innovation in outer core technology called **Dynamicores**. This leap in bowling ball technology is a more durable outer material that yields less compression upon impact increasing hitting power and creating an undeniable difference in sound and pin carry. **Dynamicores** is blue and will be noticeable when drilling into the Kingpin.

	16 LBS	15 LBS	14 LBS	13 LBS	12 LBS

RG ASY	0.020	0.020	0.020	0.011	0.011

Brunswick pushes the hook boundaries to the extreme with the all new **Kingpin**! We combined our new ECA (Enhanced Composite Adhesion) coverstock with our new Kingpin asymmetrical core to achieve the largest hook potential in Brunswick's history. Able to conquer the heaviest oil patterns, the **Kingpin** will produce good length through the front, the strongest mid lane adhesion allowing for exceptional backend motion on oily to heavy oil lane conditions.
