

## LETHAL REVOLVER™ — NEW

With its 2000 Siaair Micro Pad finish, the Lethal Revolver unites the proven Propel X Solid coverstock and the Jack low RG core to produce a ball motion that clears the front part of the lane and produces a strong yet predictable ball motion from the breakpoint through the pins especially for bowlers with lower rev rates.

60-105385

### JACK™ CORE

The Jack core was designed as a low RG symmetric core with a high differential. The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.

## LOADED REVOLVER™

With its Rough Buff finish, the Loaded Revolver unites the proven Propel X Pearl coverstock and the Jack low RG core to produce a ball motion that clears the front with ease and is aggressive in the mid-lane with a quick, continuous response to friction on the backend.

60-105342

### JACK CORE

The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.

## REVOLVER™

The Revolver, with its reformulated ConneXion Grip coverstock and 4,000 Siaair Micro Pad finish, provides good length with a strong continuous backend reaction that matches up on medium to oily lane conditions, providing accuracy for a range of bowling styles.

60-105312

### JACK CORE

The low RG engages in the mid-lane assisting in ball motion, and the high differential increases track flare potential giving the ball more opportunity to grip the backend while using standard layouts.
