# MASTERMIND™ INTELLECT

# HOOK

## COVERSTOCK

**Honor Roll A+ Solid** coverstock offers the most aggressive coverstock to date for a Brunswick ball. This aggressive coverstock produces easy length through the heads with unsurpassed traction in the mid-lane and backend to achieve ultimate hook.

## CORE

The **Mastermind Ultra Low RG** core features a single density squared-off elliptical inner core. The core is dynamically designed to extend the rotational energy, boosting angular velocity to transfer energy to the pins for increased pin action and higher scores.

## BALL MOTION

The new **Mastermind Intellect** with its Royal Compound finish, provides easy length through heads, strong mid lane traction with an aggressive move on the backend on medium to heavily oiled lane conditions.

## REACTION SETUP

The **Mastermind Intellect** can be drilled using the standard drilling techniques developed for asymmetric core bowling balls.

## LIGHTWEIGHT ENGINEERING

At Brunswick, the unique core shape of each individual ball is used for weights from 14 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range. At 12 and 13 pounds, Brunswick uses a generic core shape with a RG-differential that is close enough to the 14 to 16 pound shape so the same drilling instructions can be used.
