RG DIFF	0.048	0.048	0.048	0.040	0.040

The new PK 2016 coverstock is Brunswick's modern version of PowrKoil 18. PK 2016 reactive combines our re-engineered "PowrKoil 18" base coverstock with a chemical supplement package for today's conditions. Combined with the Vintage Light Bulb low RG core the Danger Zone skids easily through the front, maintaining axis rotation for the backend to deliver that famous Danger Zone reaction!

"I'm excited to see the addition of the Danger Zone to the Vintage Series! If your not there yet, get back in the Zone!"
- Parker Bohn III
