VINTAGE GOLD RHINO PRO™

COVERSTOCK

Fortify reactive coverstock is Brunswick's hottest creation based off our performance enhancing additive chemistry technology. Fortify reactive combines a new base coverstock with an enhanced additive package that will provide the easiest length with the quickest lateral traction of any coverstock to date.

CORE

The **High Differential Vintage** core features an old school tall and smooth cylinder design. By increasing the differential in this high volume core shape, the **Vintage Gold Rhino Pro** delivers added length, stronger breakpoint, and improved versatility.

BALL MOTION

With its Royal Compound Finish, the **Vintage Gold Rhino Pro** skids effortlessly through the front, maintaining axis rotation for the backend to provide superior entry angle to the pocket and exceptional pin action.

REACTION SETUP

The **Vintage Gold Rhino Pro** can be drilled using the standard drilling techniques developed for symmetric core bowling balls.

LIGHTWEIGHT ENGINEERING

At Brunswick, the unique core shape of each individual ball is used for weights from 14 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range. At 12 and 13 pounds, Brunswick uses a generic core shape with a RG-differential that is close enough to the 14 to 16 pound shape so the same drilling instructions can be used.

"I'm thrilled to see the return of the Gold Rhino Pro! The Rhino Pro Series made a statement during its time winning numerous titles. The Gold Rhino Pro captivated skid/flip ball motion for its generation."

-Parker Bohn III

SPECIFICATIONS

Hook Potential	Low(10)	<input type="text" value="190"/>	High(260)
Length	Early(25)	<input type="text" value="110"/>	Long(235)
Breakpoint Shape	Smooth Arc(10)	<input type="text" value="120"/>	Angular(150)
RG Differential	Low(0)	<input type="text" value="0.048"/>	High(.060)
RG Average	Center Heavy(1)	<input type="text" value="4.4"/>	Cover Heavy(10)

- High Differential Vintage Symmetric Core
- Fortify Pearl Reactive Coverstock
- 1- Color, Gold Pearl
- Hardness: 73-75
- 500 Siaair Micro Pad; Royal Compound
- Part No. 60-105692-93X
