Wicked Moon.

It breaks late. It breaks hard. It breaks the competition's spirit.

WICKED SIEGE™

PROPEL X™ COVERSTOCK

Introducing **Propel X** reactive coverstock, the newest addition in Brunswick coverstock technology. **Propel X** features an enhanced pore structure to provide Xtra consistency from shot to shot and Xtra versatility on a wider variety of lane conditions.

MACE™ CORE

Mechanical Asymmetric Core Engineering. The **MACE** medium RG core has three major benefits, medium RG core system for a breakpoint further down lane, high RG differential to increase backend traction and high RG asymmetric differential to quicken the response time to friction.

BALL MOTION

The **Wicked Siege** combines the new **Propel X** coverstock and the **MACE** medium RG core to produce a ball motion that is clean through the front, consistent in the mid-lane with a quick response to friction on the backend. With its consistency from shot to shot and versatility across the lane, the **Wicked Siege** will be the first ball out of your bag and a new benchmark ball for Brunswick on medium to oily lane conditions.

REACTION SETUP

The **Wicked Siege** can be drilled using the standard drilling techniques developed for asymmetric bowling balls.

LIGHTWEIGHT ENGINEERING

The unique core shape of each Brunswick ball is used for weights from 14 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range. The same drilling instructions can be used for 12- and 13-pound balls. This is because Brunswick uses a generic core shape with an RG differential that is close enough to the 14-16 pound shape.

SPECIFICATIONS

Hook Potential	Low(10)	<input type="range" value="165"/>	High(175)
Length	Early(25)	<input type="range" value="115"/>	Long(235)
Breakpoint Shape	Smooth Arc(10)	<input type="range" value="90"/>	Angular(100)
RG Differential	Low(0)	<input type="range" value="0.050"/>	High(.060)
RG Average	Center Heavy(1)	<input type="range" value="4.8"/>	Cover Heavy(10)

- MACE Core
- Propel X Coverstock
- 2-Color, Black/Purple Pearl
- Hardness: 75-76
- 500 Siaair Micro Pad; Rough Buff Finish
- Chart Position: Q-5
- Part No. 60-105332-93X
