

### MEANSTREAK™ BEATDOWN — NEW

The Meanstreak Beatdown combines the Addaptive  $f(P+S)$  Solid coverstock with the Meanstreak Medium RG core to provide plenty of traction in the oil with a strong response on the backend and excellent continuation through the pins on medium to heavy oil lane conditions.

#### MEANSTREAK MEDIUM RG SYMMETRIC CORE

The Meanstreak Medium RG symmetrical core features a long and lean design to provide maximum energy retention. Increasing the mass around the equator has further stabilized the dynamics increasing the mid-lane traction.

### MEANSTREAK™ BRAWLER

The Meanstreak Brawler skids easily through the front part of the lane, revving up strong in the mid-lane for a strong and continuous backend reaction. This combination of coverstock and core creates an extremely versatile motion on medium oil lane conditions.

### MEANSTREAK™

With its high gloss finish, the Meanstreak is super clean through the front, retaining axis rotation for the backend to produce a quick response at the breakpoint and excellent continuation on the backend. This combination of coverstock and core creates an extremely versatile motion and a great "Go To" ball on broken down lane conditions.

#### MEANSTREAK HIGH RG SYMMETRIC CORE

The new Meanstreak High RG symmetrical core features a long and lean design to provide maximum energy retention. Adding a mass around the equator stabilizes the dynamics to enhance the versatility of the core.
